### 38.0 SECTION A – PICKUP AT VENDOR’S STOCKYARD

Ulster County zones are for purposes of determining the County's **transportation costs** that will be added to the bid price offered to determine the most economical vendor to receive the Award. This cost will be calculated using the formula below and will be added to the bid price offered to determine the TOTAL COST to haul the materials. Each bid price will be individually calculated for each of the 17 zones listed in order to determine the TOTAL COST for Award purposes. The BID WILL BE AWARDED BY ITEM, BY ZONE, to a single vendor for each product commodity that is low bid with the transportation factor added.

The transportation costs will be calculated by the County of Ulster using the most reasonable round trip, truck route from the Vendor's Stockyard to a County owned highway facility in each zone or to an Ulster County job site. Where a County owned facility does not exist in each zone the calculation shall be to the Town highway garage in that zone. The transportation costs will be calculated by the County of Ulster based on an average truck load of ten tons. The calculation will use **\$2.60/round trip mile (per truckload)** multiplied by the appropriate number of round trip miles and then divided by 10 to estimate the cost, per ton, to transport each ton of material. These mileage calculations are determined by Ulster County and are final.

**Example Calculation:** Item name: #1 Stone, ID #190 (picked up at Vendor's Stockyard)

Distance from vendor to delivery point - 15 miles (round trip equals 30 miles)

\$4.00/ton	Bid Price/ton loaded at stockyard (vendors bid)
\$7.80/ton	30 miles x \$2.60/mile divided by 10 tons (average per truckload)
\$11.80/ton	Total Item Cost/ton to use for the basis of the Award

All purchases shall be made from the awarded vendor for that zone. Purchases outside a zone may be made if it is proven by the ordering agency, that the total cost (including trucking costs) is lower than the awarded vendor's cost.

The Award for Asphalt items will also be given for the second and third lowest in each zone to accommodate the County if an excessive wait is projected that will affect completion of a particular project.

**NOTE: Awards will NOT be made to pick up materials located on the east side of the Hudson River due to the expense and logistics of crossing the river.**

Bidders should bid all locations (Quarries, Plants & Facilities) where the required products are available. Vendors should note on their bid sheet the specific location of the plant or facility they are bidding. A SEPARATE BID SHEET SHALL BE SUBMITTED FOR EACH PRODUCT FOR EACH LOCATION LISTING THE EXACT STREET ADDRESS SHALL IDENTIFY EACH LOCATION.

### **39.0 SECTION B – DELIVERED PRICING**

Items in **SECTION B – DELIVERED PRICING** may be awarded individually for each item delivered to each of the 17 zones based on the lowest responsive, responsible bid. The bid for each zone shall include delivery of the item to any point within that zone. Bidders with more than one stockyard location must submit a separate bid sheet for each location reflecting the pricing delivered from that location to each of the zones. The bidder must state individual prices for all units bid.

The price invoiced shall be the net price as bid by the awarded vendor. **No surcharges, fuel costs, prices escalations, or other cost adjustments not specifically permitted in these specifications will be allowed. All invoices must indicate the applicable UC Bid number, the zone where the items were delivered to and an accurate description of the product that was supplied. Failure to properly document each invoice may cause a delay in payment.**

Bidders should bid all locations (Quarries, Plants & Facilities) where the required products are available. Vendors should note on their bid sheet the specific location of the plant or facility they are bidding. A SEPARATE BID SHEET SHALL BE SUBMITTED FOR EACH PRODUCT FOR EACH LOCATION LISTING THE EXACT STREET ADDRESS.

### **40.0 PRICE ADJUSTMENT FOR HOT ASPHALT PRODUCTS**

Price Escalation and De-escalation will be allowed only on the hot asphalt products. **When a Price Adjustment is claimed on an invoice, that invoice must show the current Average Posted Price as well as the base Average Posted Price used in this specification and document the math used to determine the Adjustment that is being claimed. Failure to properly document each invoice may cause a delay in payment.**

The Price Adjustment will be based on the Average Posted Prices for Asphalt (Performance Graded Binder) per US ton as reported by the NYS DOT. This Average Posted Price is available on the DOT WEBSITE by searching for “fuel, asphalt & steel price adjustments” at <https://www.dot.ny.gov/main/business-center/contractors/construction-division/fuel-asphalt-steel-price-adjustments>

The Base Average Posted Price for all asphalt prices submitted on this bid, and for all contracts that result from this bid, will be the price posted by the NYS DOT for **February 2014 which is \$574/US ton.**

The NYS DOT determines new Average Posted Prices for Asphalt each month. It should be understood that price adjustments, in accordance with the formula below, would be effective on purchases made on and after the first day of the following month. In no event will a price adjustment be effected unless the change amounts to more than \$.10 per ton. All price adjustments will be computed to two decimal places. Any and all price revisions allowed by this contract shall be calculated and applied to the original Unit Price per US Ton that was bid.

Any introduction or withdrawal of a temporary voluntary allowance, terminal operator's allowance or other discount offered to the trade in general from the posted price of asphalt will be considered, for purposes of price adjustment, as a change in the posted price.

**Formula:**

The Unit Price per US ton of asphalt purchased under these Specifications will be adjusted, by Item, in accordance with the following formula:

*The Price Adjustment equals the New Average Posted Price minus the Base Average Posted Price multiplied by the Total Percent % Liquid Asphalt in each product (as indicated below).*

**Sample Calculation:**

If the new average posted price is established at \$582 per ton and if the Base Average Posted Price for this bid is **\$574/ton** and we are adjusting the Unit Price per Ton of Hot Mix Asphalt Type 7 (**7.85%**), the calculation would be as follows:

$$(582.00 - 574.00) \times .0785 = (+) \mathbf{\$0.628/Ton \text{ of Asphalt Type 7}}$$

The Awarded vendor will be allowed to add **\$0.63** to his bid price per ton when invoicing Asphalt Type 7.

The total percentage of liquid asphalt is indicated below for each of these Specifications:

UC ITEM #	DESCRIPTION	% LIQUID ASPHALT
1000	HOT MIX ASPHALT, TYPE 1 BASE COURSE	<b>6.0</b>
1030	HOT MIX ASPHALT, TYPE 3 BINDER COURSE	<b>6.5</b>
1060	HOT MIX ASPHALT, TYPE 5 SHIM COURSE	<b>9.25</b>
1090	HOT MIX ASPHALT, TYPE 6 TOP COURSE	<b>7.2</b>
1120	HOT MIX ASPHALT, TYPE 6F TOP COURSE	<b>7.2</b>
1150	HOT MIX ASPHALT, TYPE 7 TOP COURSE	<b>7.85</b>
1180	HOT MIX ASPHALT, TYPE 7F TOP COURSE	<b>7.85</b>

All Hot Mix Asphalt shall meet NYS Standard DOT specifications dated January 2, 1995

**41.0 PRICE ADJUSTMENT FOR FUEL PRODUCTS USED IN DELIVERED PRICING**

Price Escalation and De-escalation will be allowed as a “surcharge” on the invoice for fuel products used to deliver contract materials to Ulster County. **When a Price Adjustment is claimed on an invoice, that invoice must show the current Average Posted Price as well as the base Average Posted Price used in this specification and document the math used to determine the Adjustment that is being claimed. Failure to properly document each invoice may cause a delay in payment.**

The Price Adjustment will be based on the US Energy Information Administration (EIA) price per US gallon for Ultra Low sulfur Diesel Fuel for the New England States. This Weekly Average Posted Price is available on the EIA Website at <http://www.eia.gov/> by clicking on “Sources/Petroleum and other liquids” and then “Data” and “Prices”. Choose the “Weekly Retail Gasoline and on-highway Diesel Prices” and select “New England (PADD 1A)”.

The **Base Average Posted Price** for any fuel adjustments (surcharges) for all contracts that result from this bid will be the price posted by the US EIA for **the week of February 3, 2014 for Ultra Low Sulfur Diesel Fuel for the New England States which is \$4.305, as shown below.**

The US EIA determines new Average Posted Prices for Fuel each week. It should be understood that price adjustments (surcharges) for fuel, in accordance with the chart below, would be effective on deliveries made on and after the first day of the week of the posting. **Fuel surcharges will not be allowed until the Average Posted Price changes more than \$0.50 above or below the base price.** Once the posted price leaves the Base Price Range shown on the following chart each additional change exceeding \$0.25 will result in a \$4.00 surcharge **per delivery** as shown. i.e. If the Posted Price is \$4.839/gallon then a surcharge of \$4.00 per delivery may be applied as the cost has increased past the \$4.805 threshold.

Previous price history for diesel fuel is available at <http://www.eia.gov/petroleum/gasdiesel/> but can be hard to find. **Vendors that add the surcharge to their invoice are required to print the applicable EIA price page (as shown below) and submit it with their invoice to avoid confusion or delay in payment.**

<b>WEEKLY EIA POSTED DIESEL PRICE</b>	<b>SURCHARGE ALLOWED PER DELIVERY</b>
Under \$3.305	(\$12.00 CREDIT)
Under \$3.555	(\$8.00 CREDIT)
Under \$3.805	(\$4.00 CREDIT)
