WHEREAS, this resolution has been submitted by the County Executive on behalf of the Department of Public Works; and

WHEREAS, the County Executive established a Citizens Advisory Committee (hereinafter the “Committee”) consisting of stakeholders from the New Paltz community to make recommendations on the bridge replacement, including the type of bridge and the need for bicycle and pedestrian accommodations; and

WHEREAS, the Committee concluded that a new bridge design should be a “Pony Arch” to allow for better views across the Wallkill River, and with sufficient width to accommodate both bicycles and a sidewalk for pedestrians; and

WHEREAS, a temporary bridge will be needed to carry traffic across the Wallkill River during construction of the new bridge as available detour routes are too long and would adversely impact the economy, quality of life, and safety of the New Paltz area; and

WHEREAS, the existing bridge carries a waterline that services the Village of New Paltz (hereinafter the “waterline”) that will need to be replaced as part of the bridge replacement; and

WHEREAS, the County has completed the design of the bridge using in-house engineers from the County’s Department of Public Works (hereinafter “DPW”); and

WHEREAS, the County working with the Village of New Paltz has been allocated funds from the New York Rising program to help offset the cost of the bridge, and the relocation of the waterline; and
