Training Announcement

The Rules have Changed A Firefighters Guide to Lightweight Construction

12 Hours
May 10, 15, 17, 22
Start time 1900
Spring Lake Station

Course Description

This course introduces the student to the special characteristics and considerations of Lightweight Wood Construction. Topics such as manufacturing methods, component awareness, fire performance, and strategies & tactics pertaining to fires involving lightweight wood construction will be examined. Primary emphasis is on improving fire personnel's ability to recognize the presence of lightweight wood construction and the hazards related with it. Course material enables the student to recognize the dangers, operate safely and better predict the overall reaction of a building during fire conditions. The course includes three student activities.

Designed for: Fire Officers and senior firefighting personnel.

Instructor: Dave Allen SFI
Maximum Students: 24
Pre-Requisites: BEFO or Equivalent
