Project Name:	<b>Central Auto Vehicles</b>
Project Type:	Equipment
Project Purpose:	Useful Life
New (Y/N):	N
Routine (Y/N):	Y
Estimated Start Date:	01/17
Estimated Completion Date:	12/22
Estimated Total Cost:	<b>\$1,880,000</b>

Project Description
Replacement of county fleet vehicles on a scheduled basis.

Project Detail and Status
These vehicles will replace aging vehicles (ranging from 10 to 15 years old) in the County's fleet. Central Auto will purchase these vehicles according to the 5 year plan to replace old, high mileage automobiles that are breaking down on a regular basis. In addition, this Plan includes the purchase of a 24 capacity Mini-Bus for the Veterans Agency. This bus will replace an existing bus (2004) that currently has approximately 170,000 miles. The existing bus will be repurposed into the County Fleet to accommodate other needs.

**Family Court**

Project Name: **Family Court**  
 Project Type: Facilities  
 Project Purpose: Growth  
 New (Y/N): Y  
 Routine (Y/N): N  
 Estimated Start Date: 01/2017  
 Estimated Completion Date: 11/2018  
 Estimated Total Cost: **\$10,797,855**

**Project Description**

Renovate existing Development Court Complex (BRC) to accommodate Family Court. This project is pending voter approval of a referendum in November 2016.

**Project Detail and Status**

Provide new Court facility to meet the County's growing needs and address longstanding safety, security, staff and client needs per mandated requirements of NYS Office of Court Administration. Project is contingent upon the passing of the referendum to allow Family Court outside the City of Kingston. Existing occupants will be relocated.

Department

**Project Description**

Replace boilers with new energy efficient dual fuel capable burners and install natural gas main to Building.

**Project Detail and Status**

Replace two existing units with new energy efficient boilers with dual fuel capable burners to allow units to operate on either natural gas or fuel oil. Replace existing header valves, modify breeching and piping and install natural gas trains. Upgrade existing energy management systems to accommodate new heating system. Include boiler piping chemical treatment. Central Hudson to provide natural gas service to site at no cost to the County. Anticipated annual energy/maintenance costs savings (using current energy cost data and annual repair costs) of approximately \$150,000 per year.

Project Description
Development of Harry Thayer Park.

Project Detail and Status
Contract with landscape architect to provide conceptual, schematic design and construction plans for the future development of Harry Thayer Park. Develop the park over a 4 year period. Portions of the work to be performed by UCDPW staff. Facilities to include portable restroom and portable, small tourism center that can be temporarily relocated prior to a flood. Picnic tables, kayak storage racks, trails, gardens and vendor areas will also be proposed.

Project Name:	<b>Quarry Complex Renovations</b>
Project Type:	Facilities
Project Purpose:	Useful Life
New (Y/N):	N
Routine (Y/N):	Y
Estimated Start Date:	01/18
Estimated Completion Date:	12/19
Estimated Total Cost:	<b>\$819,280</b>

**Project Description**

Correct life/safety OSHA Compliance deficiencies. Renovation of deteriorated garages in the Quarry Complex for improved employee safety and operating efficiency.

**Project Detail and Status**

Upgrade electrical systems and perform interior and exterior painting. Install fire alarm and security systems. Install carbon monoxide monitoring systems. Door and hardware replacement. Correct structural deficiencies. Energy savings are estimated to result in savings of \$4,000 annually for a 3 year savings of \$12,000.

Phase Description	Start Date	Completion Date	Cost

Project Name: **Facilities Master Plan**  
 Project Type: Facilities  
 Project Purpose: Usefull Life  
 New (Y/N): Y  
 Routine (Y/N): N  
 Estimated Start Date: 1/17  
 Estimated Completion Date: 12/17  
 Estimated Total Cost: **\$175,000**

**Project Description**

The focus of the 2008 Facilities Plan updated was to identify high priority health, safety and preservation of facility projects to ensure the ongoing operations of the College, and to identify the highest priority. With new administration the focus of the facilities master plan needs to be reevaluated and a new plan needs to be established. This new plan will help develop a foundation for the future capital project and direction of SUNY Ulster.

**Project Detail and Status**

An updated Facilities Plan will be created to identify the current needs of the College and ensure that we stay focused on the high priority health, safety and preservation of the facility and facilitate SUNY funding.

Emergency Management  
**County Wide Radio System**  
 Project Name:  
 Project Type: Technology  
 Project Purpose: Public Safety  
 New (Y/N): N  
 Routine (Y/N): N  
 Estimated Start Date: 02/17  
 Estimated Completion Date: 12/22  
 Estimated Total Cost: **\$19,840,000**

**Project Description**  
 This is a countywide radio system for police, fire and EMS agencies to achieve interoperability and at the same time improve radio coverage. Components of the existing radio system are over 40 years old and provide only limited features. Newer technologies would allow greater functionality. In addition, this project will be used to replace the repeater system with a fully integrated simulcast system for the Common 911 Police Frequency. Currently we operate separately on 3 mountain tops. The dispatcher and officer in the field must select an appropriate tower to transmit on. This is time consuming and often times leads to an officer safety issue. The new system will allow us to transmit off of 6 mountain tops at the same time, increasing our coverage area significantly. The dispatcher and officer in the field will only have to chose one channel which to transmit on, whereby increasing officer safety.

**Project Detail and Status**  
 The emergency services community is using an antiquated and fragmented radio system. Implementing and interoperable radio system throughout the entire county would allow for better and more efficient communications on a daily basis, and during large scale events. Aside from achieving interoperability, the overarching need in emergency services is for clear, dependable and accessible radio communications. The current system is archaic, not dependable and has limited coverage. This is a direct safety issue for our first responders, and it hampers their ability to best serve the public. System design is complete, now we need to proceed to construction.

Project Name: Ulster County Sheriff's Office and  
Emergency Management  
**Enterprise Software Upgrade**

Project Type: Equipment

Project Purpose: Technology

New (Y/N): N

Routine (Y/N): N

Estimated Start Date: 1/17

Estimated Completion Date: 12/18

Estimated Total Cost: **\$2,500,000**

**Project Description**

Upgrade to County Records Management/CAD System for 911, Sheriff's Office Road Patrol, Civil Division and Jail. Ulster County first purchased the New World Aegis records management system in 1991 as a complete County solution for handling 911 and Sheriff's Office emergency dispatch and records management. At that time, computer solutions were in the infancy stage, and the Aegis system certainly fulfilled our needs. This system is now 24 years old and needs to be brought up to modern standards. The number of entries logged in the system now totals in the millions, and 911 alone handles 88,000 entries per year. The Sheriff's Office relies on this system for every function that it performs in every division.

**Project Detail and Status**

This system operates as a "green screen" (that is, non-windows based) solution. It is very cumbersome to navigate, because it requires entering command prompts to go from screen to screen versus point-and-click technology. The new upgraded enterprise or .net version will allow for much quicker response time and ease of operation. This in turn will create both better workflow and savings in man-hours for the Sheriff's Office and Emergency Communications.

Ulster County Transit (UCAT)

Project Name: **Buses - Mandatory Replacement**  
 Project Type: Trans. Infrastructure/Facilities  
 Project Purpose: Useful Life  
 New (Y/N): N  
 Routine (Y/N): Y  
 Estimated Start Date: 01/17  
 Estimated Completion Date: 12/22  
 Estimated Total Cost: **\$6,520,000**

**Project Description**

Replacement of buses , fare collection system and bus wash as they have reached their useful life. Initial Planning and Design for an additional storage building for approximately 12 buses currently out in the elements

**Project Detail and Status**

UCAT runs a fleet of 28 buses 1,300,000 miles per year. In order to maintain safe and functional vehicles it is necessary to replace buses once their useful life has been reached. In a seven year period ridership has grown by 180,000 passengers, producing more wear and tear on the systems of a bus. We will also be replacing our bus wash system and upgrading our fare collection system. Initial Planning and Design for an additional storage building for approximately 12 buses currently out in the elements

**Project Description**

Replacement of heavy machinery and vehicles on a scheduled basis for the Roads & Bridges Division.

**Project Detail and Status**

Vehicles and equipment are past their useful service lives. This 4 year program will replace vehicles with very high mileage and equipment that have high hours of use. Note that equipment service life is rated in terms of operating hours and not mileage.

**Project Description**

This project is to install 4 foot wide shoulders along Route 299 from Butternut Road to Route 44/55 in the Towns of New Paltz and Gardiner. It is currently listed on the Transportation Improvement Program (TIP) under PIN 8051.11.

**Project Detail and Status**

The County plans to procure and hire a consultant engineer in 2017 to begin the project. The current costs and schedule are based on the Draft 2017-2021 TIP.

**Project Description**

BRIDGE-NY is a new State program designed to provide assistance to local governments to rehabilitate and replace bridges and culverts. Application has been made for the first two years of the program to include two bridges and ten culverts, of which the possibility of one bridge and up to three culverts may receive authorization for reimbursement each year. Submitted for 2017: Wilbur Bridge and Rochester, Shawangunk, Shandaken, Wawarsing and Springtown Rd "Humpo" culverts; for 2018: Maltby Bridge and Woodstock-Zena Rd, Lloyd, Marlboro, Olive-Kripplebush, and Rosendale culverts. Bridges are 95% reimbursable and culverts are 100% reimbursable.

**Project Detail and Status**

Two bridges and 10 culverts were selected based on those that meet program guidelines with the most deficiency. The possibility of two of the bridges and six of the culverts may be selected during the first two years of the program, with the possibility of the program continuing into the future.

**Project Name:** Watson Hollow Slope Stabilization

**Project Type:** Transportation Infrastructure

**Project Purpose:** Useful Life

**New (Y/N):** Y

**Routine (Y/N):** Y

**Estimated Start Date:** 5/2016

**Estimated Completion Date:** 12/2017

**Estimated Total Cost:** **\$362,000**

**Project Description**

This project seeks to repair the embankment of Watson Hollow Road (County Road 139) in the Town of Olive. Potential stream management funding available for this project.

**Project Detail and Status**

The current roadway is limited to one-way travel, maintained by a two-way stop sign on either side of the embankment failure. Guide rail has been placed in the travel lane in order to protect motorists. A consultant engineering is currently under contract with the County and it is anticipated that the design will be complete in by 4/2017. A construction contract is anticipated to be let in 4/2017 and completed by 12/2017. As the engineering has already been funded in 2016 through a grant from the Ashokan Watershed Stream Management Program, this project solely accounts for the construction dollars. Although the funding is displayed as 100% County, DPW will apply for grants to assist in the costs.

**Project Description**

This project is to install a H-Pile wall, culverts and in-stream mitigation to repair and protect Frost Valley Road (C.R. 1&141) which was heavily damaged during Hurricane Irene in the Town of Denning.

**Project Detail and Status**

The project is to install a H-Pile wall, new culverts and perform stream mitigation measures in order to reduce flood risk to Frost Valley Road (C.R. 1&141) in the Town of Denning. The project has 80% complete engineering plans produced by Milone and MacBroom, retained and funded by NYCDEP. UCDPW intends to apply for funding from the Rondout Watershed Stream Management Program (RWSMP) to assist in construction costs.

**Project Description**

Rehabilitation work on the Donahue Bridge (BIN# 3347580) on County Route 47 crossing over the Esopus Creek in the Town of Shandaken. Potential Bridge NY funding available for this project

**Project Detail and Status**

This project proposes to rehabilitate the Donahue Bridge (BIN# 3347580) on County Route 47 crossing over the Esopus Creek in the Town of Shandaken by sandblasting, painting and utilizing other rehabilitation measures. This bridge is located on the NYSDOT detour route for the replacement of a bridge on Route 28. NYSDOT made improvements to the structure prior to the detour's implementation. DPW will re-evaluate the bridge's condition to determine if work is still required.

 Transportation Infrastructure  
 Stream Mitigation  
 Project Name:  
 Project Type:  
 Project Purpose:  
 New (Y/N): N  
 Routine (Y/N): N  
 Estimated Start Date: 1/17  
 Estimated Completion Date: 12/18  
 Estimated Total Cost: **\$850,000**

**Project Description**

Remediation of the Espous Creek through channel reconfiguration and stream bank armoring to increase the hydraulic capacity of the stream and reduce risk of flooding to Oliveria Road and nearby residencies.

**Project Detail and Status**

The Espous Creek immediately downstream (North) of McKinley Hollow Road in the Town of Shandaken has been a site that has led to extensive damage to County Road (C.R.) 92 and private residential homes since 2005. C.R. 92 is impassable during rainfall events of 3 or more inches (one-year design rainfall event according to NYSDEC). We hope to accomplish flood relief through a two phase project. Phase 1 will be to hire a consultant to survey the reach, plan and propose a design channel to reduce flood risk. Phase 2 will be to implement the proposed design. UCDPW applied for a FEMA grant for this project which was denied in 2015. No funding beyond County funds have been located yet.

**Project Description**

This project will analyze eroded or slumping slopes, determine the best method of repair and implement. Roads include Old Tongore Road (Town of Marletown), Dewitt Lake Road (Town of Rosendale) and Ohayo Mountain Road (Town of Woodstock). Within this project, slope stabilizations via Soil Nails are currently underway in 2016 on Yaegerville Road (Town of Denning), River Road (Town of Esopus) and Oliveria Road (Town of Shandaken). These sites will be completed in 2016.

**Project Detail and Status**

Sites have been located along Ulster County roads where slopes are impacting or close to impacting the travel lane(s). In 2016, Geotechnical analyses was performed on the embankments of Old Tongore Road, Ohayo Mountain Road, and DeWitt Lake Road. The constructed solution for these project sites is to be undertaken in 2017 and 2018. Possible construction solutions may include a rigid retaining wall, soil nails, mechanical stabilized earth (MSE) wall, or other means to be determined in the 2016 Geotechnical Analyses.

**Project Description**

Engineering, right of way and construction of 6 ft. wide shoulders to provide for safer pedestrian and bicycle traffic along South Putt Corners Rd from Rt. 299 to Rt. 32 in the Town of New Paltz. This project is currently on the Transportation Improvement Program (TIP) as PIN 8759.90.

**Project Detail and Status**

South Putt Corners Road has insufficient shoulders along the roadway to safely accommodate pedestrian, bicycle and vehicular traffic. This project is listed on the current TIP under PIN # 8759.90. The authorization to proceed to detailed design phase was received from NYSDOT in 2015 and right of way acquisitions are currently underway in 2016. Construction is anticipated in 2017. The cost estimates for construction are based on the Draft 2017-2021 TIP.

**Project Description**

Matching funds for infrastructure investments that assist "industrial uses" whereby additional economic activity is generated. Projects must be consistent with NYS Authorizing Legislation.

**Project Detail and Status**

The County has special state authorizing legislation that allows it to fund infrastructure and facilities that generate economic activity defined as job creation and retention. The legislation does not control amount of funds or required match. As proposed, the project would fund up to 25% of projects costs with a maximum of \$500,000. The project application process would be managed by the Office of Economic Development and there would be a annual call for projects. It is anticipated that an increased match may be offered based on economic activity generated. Request is to fund up to one million dollars annually.

Project Name:	Planning
Project Type:	<b>Brownfield Study</b>
Project Purpose:	Land Use
New (Y/N):	Economic Development
Routine (Y/N):	N
Estimated Start Date:	N
Estimated Completion Date:	08/16
Estimated Total Cost:	12/17
	<b>\$225,190</b>

Project Description
The Project would develop a countywide Revitalization Opportunities Report, that includes a description of clusters of brownfields and underutilized sites and infrastructure to prioritize future brownfield opportunities. The Brownfield program has three sequential steps and this study is formally known as a Step 1 Prenomination Study. Subsequent steps include nomination and finally implementation.

Project Name: **Hudson Valley Rail Trail West - Phase 4 CP #451**  
 Project Type: Transportation/Recreation  
 Project Purpose: Economic Development  
 New (Y/N): N  
 Routine (Y/N): N  
 Estimated Start Date: 08/15  
 Estimated Completion Date: 12/17  
 Estimated Total Cost: **\$1,993,904**

Planning

**Project Description**  
 Project is a federal-aid transportation project to extend the Hudson Valley Rail Trail (HVRT) in the Town of Lloyd westward towards New Paltz. Project is primarily funded by a Transportation Enhancements Program grant and will extend the HVRT approximately 1.25 miles from New Paltz Road to South Street. Once constructed, the HVRT will extend 5.5 miles from the Walkway Over the Hudson to South Street. County also received award of additional revenue of \$50,000 in 2016 from New York State. CAPITAL PROJECT NO. 451

**Project Detail and Status**  
 County received \$1.6 million Transportation Enhancement Program grant in late 2014. Capital Project No. 451 was created on 4/21/15 by Resolution No. 139. Engineering consultant was selected through RFQ process, and final contract was approved on July 21, 2015 by Resolution No. 293. Consultant (HVEA Engineers) began engineering and design on August 1, 2015. The Legislature issued a Negative Declaration under SEQRA through Resolution No. 45 of 2016, and approved an amendment to the Capital Project in April 2016 through Resolution No. 238 to add Right-of-Way acquisition to the Project. The Legislature held a Public Hearing on the Project on June 21, 2016.

	Planning
Project Name:	<b>Kingston Rail Trail CP #334</b>
Project Type:	Transportation/Recreation
Project Purpose:	Economic Development
New (Y/N):	N
Routine (Y/N):	N
Estimated Start Date:	03/15
Estimated Completion Date:	12/17
Estimated Total Cost:	<b>\$2,335,000</b>

**Project Description**

Planning, design and construction of a non-motorized, multi-use trail connecting the existing O&W Rail Trail (Hurley Rail Trail) with the City of Kingston (at Washington Avenue). The project assessed two alternative routes. Alternative 1 was the the abandoned O&W right-of-way between Hurley and Kingston. Alternative 2 was the County-owned Ulster & Delaware Railroad corridor plus available NYS DOT right-of-way on Route 209. CAPITAL PROJECT NO. 334

**Project Detail and Status**

Following the evaluation of the two alternate routes which began in 2015, the County has selected Alternative 1 (O&W corridor) for the route, and detailed design was commenced in April 2016 by the consultant, Barton & Loguidice. The detailed designed and right of way acquisition should be completed by spring 2017 with construction to follow later in 2017.

	Planning
Project Name:	<b>Open Space &amp; Recreation Fund</b>
Project Type:	Other
Project Purpose:	Recreation/Environment
New (Y/N):	N
Routine (Y/N):	Y
Estimated Start Date:	10/16
Estimated Completion Date:	10/21
Estimated Total Cost:	<b>\$3,000,000</b>

**Project Description**

This program will provide matching funds for open space protection, farmland preservation, and expansion of public recreational opportunities consistent with the County's adopted Open Space Plan. Matching funds will be used for conservation easements, property acquisition, and filling of gaps in the County's multi-use trail system.

**Project Detail and Status**

The County's adopted Open Space Plan (2007) calls for the creation of an Open Space Fund that would provide matching funds for open space protection consistent with the recommendations in the Plan. The fund would be used to leverage federal, state and private funding for open space preservation through purchase of easements or acquisition of title. The County will develop a funding application managed by the Planning Department and Department of Environment. Eligible applicants include municipalities and non-profit organizations, and all projects must document local support and willing landowners. The Agricultural and Farmland Protection Board's support will be required for all farmland preservation projects. In addition to open space preservation, the capital program may also be used to implement the Ulster County Transportation Council's Non-Motorized Transportation Plan (NMT) by filling gaps in the County's multi-use trail system. Funding for trail maintenance is not eligible.

Project Name: **Ulster County Rail Trail Project: Ashokan Rail Trail CP #459**  
 Project Type: Transportation Infrastructure  
 Project Purpose: Economic Development  
 New (Y/N): N  
 Routine (Y/N): N  
 Estimated Start Date: 01/16  
 Estimated Completion Date: 12/18  
 Estimated Total Cost: **\$5,895,000**

Planning

**Project Description**

Planning, design and construction of a 11.5-mile multi-use recreational trail from West Hurley to Boiceville along the County-owned Ulster & Delaware (U&D) Railroad Corridor along northern shore of Ashokan Reservoir.

**Project Detail and Status**

Project will develop preliminary and final design for the 11.5 miles of U&D corridor that cross New York City Department of Environmental Protection (NYC DEP) Watershed lands. Ulster County signed an Agreement with NYC DEP pursuant to Resolution No. 187 of 2015, which facilitates and helps fund the conversion of this U&D segment to recreation trail. In December 2015, the Legislature adopted Resolution No. 480 creating the "Ashokan Rail Trail" (Capital Project No. 459), and in May 2016, the Legislature approved a contract with an engineering consultant to begin the engineering, design and environmental reviews.

Planning

**Stream Management Plan**

Project Name: **Stream Management Plan**  
 Project Type: Green Infrastructure  
 Project Purpose: Economic Development  
 New (Y/N): N  
 Routine (Y/N): N  
 Estimated Start Date: 01/16  
 Estimated Completion Date: 04/17  
 Estimated Total Cost: **\$200,000**

**Project Description**

Ulster County will act as fiscal agent working with stakeholders and appropriate agencies will cause to be prepared a Stream Management Plan for the Lower Esopus. The Plan will identify projects that can be carried out that will improve water quality, recreational access, flood protection, etc. Funding is part of the Consent Order between NYCDEP and NYSDEC.

Planning

Project Name:	<b>Ulster County Rail Trail Project: Midtown Linear Park</b>
Project Type:	Recreation; transportation
Project Purpose:	Public health; economic dev.
New (Y/N):	N
Routine (Y/N):	N
Estimated Start Date:	10/16
Estimated Completion Date:	10/18
Estimated Total Cost:	<b>\$1,650,000</b>

**Project Description**

The Project will design, engineer and construct an approximately 0.8-mile multi-use recreational trail/ linear park from Cornell Street to Westbrook Lane in the City of Kingston along the County-owned Ulster & Delaware (U&D) Corridor. The Project will convert the former Cornell Street Rail Yard into a community "pocket park" and provide a much-needed safe pedestrian and bicycle link from Midtown Kingston to the Kingston Plaza/ Uptown Kingston.

**Project Detail and Status**

The Cornell Street Rail Yard has been vacated and is undergoing a Phase I and Phase II Environmental Site Assessment. It is expected that once the extent of possible contamination is known, the County can begin Design (and if necessary, remediation work) at the future site of the pocket park/ linear park. The County is applying for private foundation and CFA funding for the design and construction of this project.
