6:30 pm – 9:00 pm

SUNY Ulster, Stone Ridge
Vanderlyn Hall, Student Lounge

Clean Energy and Climate Resources for Your Community

Learn about available programs and grant funding for your community!

In this session, we will explore different NYS programs that not only provide technical support but help communities unlock grant dollars for project implementation. Learn about the new **NYSERDA Clean Energy Communities Program** – and its associated grants of up to \$250,000 for participating municipalities. In addition, a representative of NYS DEC will provide information on the **Climate Smart Communities Program** and the CSC Certification Process. This presentation is appropriate for both communities considering adopting the CSC pledge as well as communities that have already adopted the pledge and are moving toward implementation and/or Certification. Both programs are a significant opportunity to take action on clean energy, resiliency, and climate change mitigation. In addition, information about the NYS DEC funding for zero emission vehicles for municipalities and electric vehicle charging stations will be presented.

Speakers:

Dazzle Ekblad- Climate Policy Analyst, NYS Department of Environmental Conservation

Brad Tito- Program Manager, Communities & Local Governments, NYSERDA

Carla Castillo- Clean Energy Communities Coordinator, Hudson Valley Regional Council

Amanda LaValle- Coordinator, Ulster County Department of the Environment

In this Session you will Learn About:
