

ELECTRIC VEHICLE TOURISM

Make Ulster County Your EV Destination!

Ulster County has the largest network of municipal Electric Vehicle (EV) charging stations in the State of New York and all municipal stations are free of charge, courtesy of the Ulster County Chamber of Commerce. And that's not all— additional EV charging stations are located at the Mohonk Mountain House, Buttermilk Falls Inn and Spa, Tuthilltown Spirit Distillery, Hampton Inn by Hilton and the SUNY New Paltz campus.

Take an EV road trip to visit one of the most environmentally-friendly counties in the country. If you do not yet own an EV, contact your local car rental businesses and ask them about EV rentals.

Visit www.plugshare.com and type in "Ulster County" in the search engine to locate a charging station. Check out www.ulstercountyalive.com to start planning your Ulster County adventure.

Thank you for making Ulster County your EV Destination!
