A Local Law Regulating The Use Of Polystyrene Foam Disposable Food Service Ware And Requiring The Use Of Biodegradable Or Compostable Food Service Ware By Chain Food Service Establishments In Ulster County

BE IT ENACTED, by the County Legislature of the County of Ulster, New York, as follows:

SECTION 1. TITLE.

This local law shall be known as “Food Service Waste Reduction Act.”

SECTION 2. LEGISLATIVE INTENT.

The Legislature hereby finds and determines that the prohibition of the use of polystyrene foam disposable food service ware in Ulster County and requiring that all disposable food service ware be biodegradable or compostable is in the best interests of the citizens of Ulster County.

The Legislature further finds and determines that the Environmental Protection Agency has found that the polystyrene manufacturing process is the fifth largest creator of hazardous waste in the United States. Polystyrene foam is a common environmental pollutant and non-biodegradable substance commonly used as food service ware and that there is no meaningful recycling of polystyrene foam food service ware. Alternative biodegradable and/or compostable food service ware is readily available for numerous food service applications and that these products are biodegradable and/or compostable.

The use of biodegradable and/or compostable food service ware will reduce the waste stream and reduce waste costs. Therefore, the purpose of this local law is to eliminate the use of polystyrene foam food service ware by Chain Food Service Establishments within Ulster County.

SECTION 3. DEFINITIONS.

As used in this local law, the following terms shall have the meanings indicated:

“Compostable” – All materials in the product or package will breakdown into, or otherwise become part of, usable compost (e.g., soil-conditioning material, mulch) in a safe and timely manner.

“Biodegradable” – A product or package that will completely breakdown and decompose into elements found in nature within a reasonably short time after proper disposal.

“Customer(s)” – Any person(s) obtaining Prepared Food from a Chain Food Service Establishment.

“Disposable Food Service Ware” – All bowls, plates, cartons, cups, other containers, trays, or other items designed for one time use on or in which any Chain Food Service Establishment directly places and/or packages food or provides same to Customer(s) to place and/or package food or which are used by Customer(s) to consume food. This includes, but is not limited to, service ware for takeout Prepared Food and/or leftovers from partially consumed meals prepared at or by Chain Food Service Establishments for consumption at a specific location.

“Chain Food Service Establishment” – means a food service establishment or food service establishments operating in Ulster County that is or are part of a group of fifteen or more food service establishment locations nationally, doing business under the same trade name, offering predominantly the same types of meals, foods or menus regardless of the type of ownership of the individual food service establishment locations.

“Health Commissioner” – The Commissioner of Health for Ulster County.
“Polystyrene Foam” – Any blown polystyrene, expanded, and extruded foams (commonly referred to as Styrofoam, a Dow Chemical Company trademarked form of polystyrene foam insulation) which are thermoplastic petrochemical materials utilizing a styrene monomer and processed by any number of techniques, including, but not limited to, fusion of polymer spheres (expandable bead polystyrene), injection molding, foam molding, and extrusion blow molding (extruded from polystyrene). Polystyrene foam is generally used to make cups, bowls, plates, trays, meat trays and egg cartons.
