Proposed Local Law Number 14 Of 2014

County Of Ulster

A Local Law Establishing a Tobacco Retail License and Reducing Youth Exposure to Tobacco

BE IT ENACTED, by the County Legislature of the County of Ulster, New York, as follows:

SECTION 1. TITLE.

This Local Law shall be known as the “Ulster County Tobacco Licensing and Reduced Youth Exposure to Tobacco Law.”

SECTION 2. LEGISLATIVE INTENT.

The Ulster County Legislature hereby finds and determines that Ulster County has a substantial interest in reducing the number of individuals of all ages who use cigarettes and other tobacco products, and a particular interest in protecting adolescents from tobacco dependence and the illnesses and premature death associated with tobacco use.

Tobacco companies sell products that are addictive and inherently dangerous, causing cancer, heart disease, and other serious illnesses.

An overwhelming majority of Americans who use tobacco products begin using such products while they are adolescents and become addicted before reaching the age of eighteen (18). The Surgeon General of the United States has concluded that if young people don’t start using tobacco by age 26, they almost certainly will never start.

Studies have found higher rates of smoking at schools with more tobacco retailers within walking distance. Researchers suggest that limiting the proximity of tobacco outlets to schools may be an effective strategy to reduce youth smoking rates.

Although it is unlawful to sell tobacco products to minors, 5.9% of New York retailers surveyed do sell to minors (New York State Department of Health, 2010 Youth Access Tobacco Enforcement Program Annual report); and 20% of underage smokers in New York report that they usually purchase their cigarettes from a retail store (New York Youth Tobacco Survey 2008).

A local licensing system for tobacco retailers will provide a local enforcement mechanism to allow Ulster County to monitor and increase Tobacco Retailers’ compliance with state and federal laws that prohibit sales of tobacco products to
A Local Law Establishing a Tobacco Retail License and Reducing Youth Exposure to Tobacco

minors by requiring compliance with these laws as a condition for obtaining and maintaining a local Tobacco Retail License. A local licensing system for Tobacco Retailers is consistent with the County’s power pursuant to General Municipal Law to protect and promote the health of its youth. Moreover, the Family Smoking Prevention and Control Act of 2009 provides local governments with the freedom to implement tobacco control policy options, including tobacco licensing and reducing the number of tobacco retailers in heavily youth populated areas.

A recent survey by the Baruch College School of Public Affairs found that 78% of Ulster County residents surveyed opposed tobacco sales at stores near schools and 61% percent favored an outright ban on the sale of tobacco products nears schools.

Therefore, it is the intent of Ulster County to reduce youth smoking rates by implementing effective measures through this Local Law to license all tobacco retail outlets, restrict the establishment of new tobacco retail outlets near schools, provide locally enforceable penalties, and increase education and awareness of the harm associated with tobacco use in youth populations.
