DPW - Facility Improvement Program .....	87
DPW - Fairground Improvements .....	90
DPW - Fire Alarm and Access Control Upgrade Program .....	93
DPW - Geothermal at 368 Broadway .....	96
DPW - Golden Hill Office Building Interior Renovation .....	99
DPW - Golden Hill Water Tanks .....	102
DPW - Government Operations Center .....	104
DPW - Historic Preservation of County Facilities .....	108
DPW - HVAC/Weatherization Various Buildings .....	111
DPW - Paradies Lane Solar Installation .....	114
DPW - Pump House Control Upgrade Kingston Water Department .....	116
DPW - Roof Replacement Program .....	119
DPW - Solar Array Siting Project .....	122
DPW - Trudy Resnick - Farber Office Building Repairs .....	125
DPW - UCLEC Energy Upgrades .....	128
DPW - Ulster County Pool Upgrades .....	131
Environment - EV Charging Stations .....	134

Environment - UCAT - Roof top Solar	137
Planning - Cornell Street Park	140
Planning - Golden Hill Solar Project	142
UCIS - IT / Enterprise Service Management Software	144
UCIS - Network Detection and Response (NDR) software	146
UCIS - Operations and Data Center Move	148
Health	150
ARPA - Crisis Stabilization Center	151
Home and Community Services	154
ARPA - 114 Route 28: Water & Sewer Ext.	155
ARPA - Brownfields Redevelopment	158
ARPA - Geothermal Silver Gardens	160
ARPA - Green Energy Job Training	162
ARPA - Water and Sewer Infrastructure	164
Public Safety	166
Emergency Management - County Wide Radio System	168
Emergency Management - Mobile Command Post	171
Emergency Medical Services BLS Grant Program	173
Sheriff - Brazo's Upgrade	175
Sheriff - Facility Garage/Impound Yard	177
Sheriff - Axon Body Worn Cameras	180
Sheriff - Axon In-car Camera Upgrade	182
Sheriff - Axon Taser Replacement	184
Sheriff - BEARCAT G3	186
Sheriff - Flock LPR Upgrade/Replacement	188
Sheriff - Jail Axon Body Cameras	190
Sheriff - Jail Kitchen/Laundry Equipment	192
Sheriff - Law Enforcement Equipment Replacement	195
Sheriff - Technology Purchase	197
Transportation	199
DPW - Big Pond Bridge Replacement (BIN# 3347000)	203
DPW - Bridge Flag Response	205
DPW - Bridge Program	207
DPW - Bridge Substructure Repairs	209
DPW - Bridge Substructure Repairs - Leggs Mills Bridge (BIN# 3347530)	211
DPW - Bridge Substructure Repairs - Rosendale Bridge (BIN#3347460)	213
DPW - Bridge Superstructure Repairs	215
DPW - Fantinekill Bridge (BIN# 3347600)	217
DPW - Galeville Bridge Replacement (BIN#3347430)	220
DPW - Highway Equipment - Roads & Bridges	222
DPW - Highway Safety Program	224
DPW - Hurley Mountain Road Bridge Replacement (BIN# 3347260)	226
DPW - Large Culvert Program	229
DPW - Mount Marion Traffic Signal	231
DPW - Pavement Preservation of Various Roads	233
DPW - Phoenicia Bridge Replacement (BIN#3347800)	235
DPW - Roadway Embankment Slope Stabilization (Beaverkill Road)	237
DPW - Roadway Embankment Slope Stabilization Program	239
DPW - Route 299 Shoulder Widening	241

DPW - Samsonville Road Culvert Replacement . . . . .	243
DPW - Schultz Road Bridge Replacement (BIN# 3347470) . . . . .	245
DPW - Scudder Brook Bridge (BIN# 3347570) . . . . .	247
DPW - Tongore Bridge (BIN# 3041140) . . . . .	249
DPW - Turnwood Bridge Replacement (BIN# 3347160) . . . . .	251
DPW - Ulster Landing Road Improvements . . . . .	253

DPW - Woodstock Culvert #2 . . . . .	257
DPW - Zandhoek Road Safety Improvement . . . . .	259
Planning - Golden Hill Transportation Improvement . . . . .	261
UCAT - Bus Shelters . . . . .	263
UCAT - Electric Vehicle (EV) Connections . . . . .	266
UCAT - Electrification Multimodal Centers . . . . .	269
UCAT - Fleet Electrification Program . . . . .	272

# Capital Improvement Program Reader's Guide

The Ulster County Capital Improvement Program explains the County's investments in big and long-term projects, like building new facilities, fixing roads, and buying important equipment. When reviewing this document, it's helpful to understand the difference between the Capital Improvement Program (CIP) and the Capital Budget. These two terms are closely related, but they serve different purposes. Knowing how they work together will make it easier to follow the County's spending and planning for big projects like building new facilities, upgrading roads, or investing in long-lasting equipment. Below is a side-by-side comparison to show what each one covers and how they fit into the overall budget process.

The Capital Improvement Program (CIP) is a 6-year plan that lists major projects, like building new roads, bridges, and public facilities. It helps the County decide which projects are most important and how to pay for them in the future. It's like a map that shows the County's big plans, but it doesn't mean the money is guaranteed yet. It helps the County plan for future needs and prioritize which projects are most important.

The Capital Budget is a one-year plan that shows what the County will spend this year on capital projects. While the CIP is for long-term planning, the Capital Budget shows what will be funded now. The Capital Budget, unlike the CIP, includes only projects that will start or continue during the budget year. In 2025, the Capital Budget is also included in the Operating Budget Document, unlike previous years.

## Reading a Capital Project Page

After clicking the hyperlink to a capital project, you will be brought to the project page, or you can navigate to the Capital Projects section to access the project page for all projects. In the top section of the project page you will find:

**Project Title:** In large text at the top of the project page you will find the name of the project.

**Request Owner:** Will tell you the staff member and the Department that is lead for the project. For example, in the picture to the right it shows the Deputy Commissioner to be the Staff lead, and Department of Public Works (DPW) to be the department lead.

**Department:** This field refers not to the individual department but groupings of Departments the County uses to categorize projects. This will tell you what the money is being spent for - basically, what the project aims to address. Options include:

- Culture and Recreation
- Education
- General Government
- Health
- Home and Community Services
- Public Safety
- Transportation

### DPW - Galeville Bridge Replacement (BIN#3347430)

Overview	Project Location												
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 30%;"><b>Request Owner</b></td> <td>Robert Parete, Deputy Commissioner DPW</td> </tr> <tr> <td><b>Department</b></td> <td>Transportation</td> </tr> <tr> <td><b>Type</b></td> <td>Capital Improvement</td> </tr> <tr> <td><b>Project Number</b></td> <td>628</td> </tr> <tr> <td><b>Estimated Start Date</b></td> <td>09/1/2022</td> </tr> <tr> <td><b>Estimated Completion Date</b></td> <td>12/31/2024</td> </tr> </table>	<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW	<b>Department</b>	Transportation	<b>Type</b>	Capital Improvement	<b>Project Number</b>	628	<b>Estimated Start Date</b>	09/1/2022	<b>Estimated Completion Date</b>	12/31/2024	<p>404 Galeville Road</p> 
<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW												
<b>Department</b>	Transportation												
<b>Type</b>	Capital Improvement												
<b>Project Number</b>	628												
<b>Estimated Start Date</b>	09/1/2022												
<b>Estimated Completion Date</b>	12/31/2024												

**Project Type:** Refers to the category of project (work or purchase) to be done. This gives you a better idea of what the money is being spent on - options include:

- Buildings and Facilities
- Computer Software

**Project Number:** This number is generated when a capital project is requested to be established, through a resolution to the County Legislature. This number acts as a unique identifier to track the project.

- Computers & Related Equipment
- Other Equipment
- Other Improvements
- Roads and Bridges
- Vehicles and Wheeled Equipment
- Water and Sewer.

**Estimated Start Date & Estimated Completion Date:** Tells would when the project is expected to be worked on.

**Project Location:** The red pin on the map shows where the project work will take place, or the purchased equipment will be used.

In the next two sections you will find a **description of the project** (an explanation of what is going to be done) and **images of the project** (pictures).

**Description**  
 The Galeville Bridge (BIN 3347430) is located in the Town of Shawangunk on the Wallkill River. It is a 300 foot two span steel truss constructed in the 1940s. The truss has over 40% section loss in areas and is nearing the end of its useful life. This project intends to hire a design consultant to survey and design a construction project for bridge replacement in 2024.

In the Details section (fourth section) you will find:

**New Capital Project:** Tells you if the proposed project is new to the Capital Improvement Program for the coming funding year. The Project Number for new projects will often say "TBD" as they have yet to be established.

**Details**

<b>New Capital Project?:</b> No	<b>Capital Expenses Approved To Date By The Legislature.:</b> \$5,910,315.00
<b>Type of Project:</b> Bridge Repair/Maintenance	<b>Capital Resolutions Approved By The Legislature.:</b> Resolution No. 179 of 2022, 663 of 2023.
<b>Routine?:</b> No	
<b>Will This Capital Have Any Future Operating Impacts?:</b> No <small>future operating impacts foreseen for this capital project.</small>	

**Type of Project:** This field will vary based on the project type identified in section 1 - they won't all say type of project and may have additional questions (see below for the options for each project type).

**Routine:** Tells you if this is likely to be a reoccurring project.

**Will This Capital Have Any Future Operating Impacts:** Tells you if there is anticipated to be an effect on the County's day-to-day budget. For example, building a new park may mean extra costs for staffing, utilities, and maintenance. The County needs to plan for these additional costs in the operating budget to make sure it can afford to keep the new park running.

**Capital Expenses Approved To Date By The Legislature:** Tells you if any previous funding has been approved to be expended on the project. This doesn't always tell you how much money has been expended on the project, because it needs to be authorized before it can be borrowed.

**Capital Resolutions Approved By The Legislature:** If you want to look up the resolutions that are related to the project, these are the numbers you will need. Ulster County Legislative Resolutions can be found at <https://legislature.ulstercountyny.gov/legislature/legislative-resolutions> or by scanning the QR code to the right.

Scan to View Resolutions

## Details Section by Type of Project

### Building and Facilities

<p><b>Details</b></p> <p><b>New Capital Project?:</b> No</p> <p><b>Type of Project:</b> Refurbishment</p> <p><b>Routine?:</b> No</p>
--

Type of Project options:

- New Construction
- Replacement
- Refurbishment
- Other

### Computer Software

<p><b>Details</b></p> <p><b>New Capital Project?:</b> No</p> <p><b>New Purchase or Replacement?:</b> Upgrade</p> <p><b>Routine?:</b> No</p>
---

Type of Project options:

- New
- Replacement
- Upgrade

### Water and Sewer

<p><b>Details</b></p> <p><b>New Capital Project?:</b> No</p> <p><b>Type of Project:</b> New Construction</p> <p><b>Routine?:</b> No</p>
---

Type of Project options:

- New Construction
- Improvement

### Other Equipment

<p><b>Details</b></p> <p><b>New Capital Project?:</b> Yes</p> <p><b>New Purchase or Replacement?:</b> Replacement</p> <p><b>Routine?:</b> Yes</p>
---

Instead of Type of Project, you will find:

- **New Purchase or Replacement:** This tells you if the equipment is replacing old equipment or not.

### Other Improvements

<p><b>Details</b></p> <p><b>New Capital Project?:</b> No</p> <p><b>Type of Project:</b> Other improvement</p> <p><b>Routine?:</b> No</p>
--

Type of Project options:

- New Construction
- Refurbishment
- Other Improvement

### Roads and Bridges

<p><b>Details</b></p> <p><b>New Capital Project?:</b> Yes</p> <p><b>Type of Project:</b> Bridge Repair/Maintenance</p> <p><b>Routine?:</b> No</p>
---

Type of Project options:

- New Road
- Resurface Current Road
- Bridge Repair/Maintenance
- Slope Stabilization
- Road Safety

### Vehicles and Wheeled Equipment

<p><b>Details</b></p> <p><b>New Capital Project?:</b> No</p> <p><b>New or Replacement Vehicles?:</b> Replacement</p> <p><b>New or Used Vehicles?:</b> New</p> <p><b>Useful Life In Years:</b> 10 or more years</p>
--

Instead of Type of Project, you will find:

- **New Purchase or Replacement:** This tells you if the equipment is replacing old equipment or not.

### Computers & Related Equipment

<p><b>Details</b></p> <p><b>New Capital Project?:</b> No</p> <p><b>New Purchase or Replacement:</b> New</p> <p><b>Useful Life In Years:</b> 7</p> <p><b>Routine?:</b> No</p>
--

Instead of Type of Project, you will find:

- **New Purchase or Replacement:** This tells you if the equipment is replacing old equipment or not.

- **New or Used Vehicles:** Tells you if the vehicles being purchased will be brand new, used, or a combination of both.
- **Useful Life in Years:** The useful life of equipment is the amount of time it can be used before it wears out or needs to be replaced. For example, if a truck has a useful life of 10 years, it means the truck is expected to work well for 10 years before it might break down or become outdated. After that time, it might be more expensive to keep fixing it than to buy a new one.
- **Useful Life in Years:** The useful life of equipment is the amount of time it can be used before it wears out or needs to be replaced. For example, if a truck has a useful life of 10 years, it means the truck is expected to work well for 10 years before it might break down or become outdated. After that time, it might be more expensive to keep fixing it than to buy a new one.

## Capital Budget Key Terms

**Appropriations:** The amounts of money that the County officially sets aside in its budget for a specific purpose. For example, if the County decides to build a new community center, it will appropriate a certain amount of money just for that project. The County cannot spend more than what has been appropriated without making changes to the budget.

**Bond:** A bond is like a loan. The County borrows money from investors by selling bonds and then promises to pay it back over time with interest. Bonds are used to raise large sums of money for big projects like building a new courthouse or fixing major roads. This allows the County to start projects now and pay them off over many years.

**Bond Anticipation Notes (BANs):** Short-term loans that the County uses to start a project while waiting to issue long-term bonds. It's like taking out a smaller loan now and planning to get a bigger, more permanent loan later. BANs are usually paid off in a few years when the County issues the long-term bonds.

**Capital Asset:** A piece of property or equipment that the County owns and expects to use for a long time, like a fire station, a police car, or a piece of land. These assets are important because they help provide services to the community.

**Capital Budget:** The capital budget is a plan for how the County will spend money on big projects in a single year. These projects include things like building new roads, fixing public buildings, or buying large equipment like fire trucks. The capital budget is different from the **operating budget**, which covers everyday costs like salaries and office supplies.

**Capital Improvement Program (CIP):** A 6-year plan that outlines the County's biggest projects and how much they will cost. It helps plan for future needs but doesn't guarantee money for each project right away. The CIP provides a roadmap for what the County wants to build or improve over the next few years.

**Capital Outlay:** Money spent on buying or improving large items that will last a long time, such as land, buildings, and vehicles. For example, buying a new fire engine would be considered a capital outlay because it's a big, one-time purchase that will be used for many years.

**Capital Projects:** Large projects that involve building, fixing, or buying things that will last a long time, like new bridges, public buildings, or vehicles. These projects usually cost a lot of money and are expected to last many years, so they require special planning and budgeting.

**Capital Reserve Fund:** A special savings fund set aside for future big projects or emergencies. It's like having a savings account that the County can use to pay for new projects or fix old buildings when needed.

**Cash Flow:** The movement of money in and out of a project over a period of time. Managing cash flow is important to make sure there is enough money available when bills need to be paid.

**Contingency Fund:** Extra money set aside in the budget to cover unexpected costs during a project. For example, if construction costs are higher than expected, the contingency fund can help cover those extra expenses.

**Debt Service:** The yearly payments the County makes to pay back its debt. It includes paying the original amount borrowed (called the **principal**) plus interest. Debt service is a regular part of the County's budget and is planned for until the entire debt is paid off.

**Depreciation:** The loss of value of a capital asset (like a building or vehicle) over time. Just like a car loses value the longer you drive it, a County asset also becomes less valuable due to wear and tear. This loss of value is called depreciation.

**Encumbrance:** Money that has been set aside in the budget to pay for a future expense. For example, if the County signs a contract to build a new park, the money for that project is marked as an encumbrance, even if the work has not started yet. This way, the County knows it has the funds to pay the contractor when the work is done.

**Fund Balance:** The money left over in a fund after all expenses have been paid. It's like the County's savings account for a particular fund. If there is extra money, it can be used for future projects or kept as a safety net for emergencies.

**General Obligation Bonds:** These are bonds that the County pays back using its ability to collect taxes. If the County needs to borrow a lot of money for a big project, it can issue General Obligation Bonds, which are backed by the County's promise to repay the debt using tax dollars. Because they are considered very secure, they often have lower interest rates.

**Infrastructure:** Basic physical systems that a community needs to function, like roads, water pipes, bridges, and public buildings. Maintaining infrastructure is important because it keeps the community running smoothly.

**Operating Impact:** The effect a new capital project has on the County's day-to-day budget. For example, building a new park may mean extra costs for staffing, utilities, and maintenance. The County needs to plan for these additional costs in the operating budget to make sure it can afford to keep the new park running.

**Pay-As-You-Go:** Paying for projects using current money (like tax revenue or savings) instead of borrowing money. It's like paying cash instead of using a credit card. This way, the County avoids debt, but it might take longer to save up for large projects.

**Project Timeline:** A schedule showing when different parts of a project will start and end. It helps the County stay on track and complete the project on time.

# Capital Improvement Program

A **Capital Improvement Program (CIP)** is a long-term plan that looks ahead at major projects the County plans to complete over the next six years. It outlines big investments like building new infrastructure, upgrading facilities, or purchasing equipment. The CIP helps the County plan for future needs, manage its resources, and prioritize which projects to fund first. It is a roadmap for future projects but doesn't guarantee that money will be spent on them right away.

In contrast, the **Capital Improvement Program (CIP) Budget** is the part of the County's overall budget that shows the specific capital projects the County plans to fund and work on in the upcoming year. It's an actual spending plan for capital projects within a single budget year. While the CIP is more of a strategic plan for the future, the 1-Year Capital Budget focuses on what's happening right now, allocating money for the projects that will start or continue during the current year.

## Capital Budgeting Process

The Capital Budgeting Process aligns with the County's Operational Budgeting process - which can be found here: <https://county-ulster-ny-budget-book.cleargov.com/16981/introduction/budget-introduction>

Ulster County's Operating Budget is created following the rules in the Ulster County Charter (Article IV § C-34, C-35, C-36, C-37, and C-38), and Ulster County's Administrative Code (Article IV § A4-4, A4-5, A4-6, A4-7, and A4-8). Throughout Ulster County's budgetary process, there are several important steps not specifically identified by the County Charter or Administrative code, that are critical to the creation of the budget:

- **Budget Call:** In May, the County Executive sends a letter to all County Department Heads, asking them to submit their budget requests for the next year. These requests include how much money each department expects to spend (appropriations) and how much they expect to receive (revenue).
- **Review and Adjustments:** The County Executive, along with the Budget Department, reviews the department budgets to make sure they are realistic and take into account any changes in programs or resources. They meet with department heads to discuss any adjustments or updates needed. Based on these discussions, the County Executive prepares the Executive Budget.
- **Budget Submission:** The Executive Budget, which includes both the Operating Budget (for day-to-day expenses) and the Capital Budget (for long-term projects like buildings and roads), is submitted to the County Legislature by early October.
- **Legislative Review:** In October, the Legislature reviews the proposed budget. In early November, the public can give their feedback at public hearings. After hearing from the public, the Legislature may suggest changes to the budget.
- **Final Approval:** The Legislature's Ways and Means Committee reviews any proposed changes. In December, the full Legislature votes to approve the final budget.

The County's budget follows a calendar year which starts on January 1 and ends on December 31. Each year, the new budget is developed during the late spring, summer, and early fall. The County Legislature votes to approve the budget in the late fall.

## Budget Timeline

### MAY 2024

- The Budget Department performs mandatory budget training for departments.
- County Executive distributes Executive Budget Packet with instructions for preparation of the 2025 Budget.

### JUNE 24, 2024

- Preliminary Departmental Budget input are due to the Department of Budget.
- Departmental Information Technology requests are due to be submitted to Information Services and the Department of Budget.
- Departmental Capital Project update forms and new project forms are due to Department of Public Works and Department of Budget.

### JULY 2024

- Budget Department begins meeting with Departments to review preliminary budget requests.

### AUGUST 1, 2024

- Departmental budget requests are submitted to the County Executive and Ulster County Legislature by the Department of Budget.
- Executive Office and Department of Budget begin preparation of 2025 Executive Budget document.

### OCTOBER 4, 2024

- 2025 Executive Budget File Charter Deadline.
- 2025 Executive Budget is submitted to the Ulster County Legislature.

### OCTOBER 7, 2024

- Ulster County Legislative Committees begin formal review of 2025 Executive Budget.

### NOVEMBER 2024

- During the month of November, three (3) Legislative Public Hearings will be held to allow for public input on the proposed budget.

### DECEMBER 10, 2024

- Ulster County Legislature votes on the submitted 2025 Executive Budget.

## Basis for Capital Revenue and Expenditures Estimates

**Basis for Capital Revenue and Expenditures Estimates** means the method or approach used to figure out how much money (revenue) the County will have available for capital projects and how much money it will spend (expenditures) on those projects.

- **Capital Revenue:** The expected sources of money for capital projects. This could include things like grants, bonds, state or federal funding, or money set aside from previous budgets.
- **Expenditures:** The costs or spending for these capital projects, such as construction costs, equipment purchases, or maintenance.
- **Estimates:** The numbers are predictions based on data and planning. These estimates help the County plan for the future by showing how much money will come in and how much will be spent.

The **Basis for Capital Revenue and Expenditures Estimates** in Ulster County is developed using multiple funding sources, such as state and federal grants, bonds, and allocations from the County's General Fund. For example, the **County-Wide Radio System Upgrade** was funded through a combination of state grants and local contributions to enhance emergency communications. Revenue estimates consider historical data, economic trends, and potential funding opportunities. Expenditure estimates are based on project needs, material costs, and timelines. By planning this way, Ulster County ensures that its budget accurately reflects the resources available and prioritizes projects that meet the County's immediate and long-term needs.

## Capital Improvement Project Ranking and Prioritization Process

The **Capital Improvement Project Ranking and Prioritization Process** in Ulster County evaluates and ranks potential projects based on criteria such as public safety, legal requirements, environmental impact, and alignment with the County's long-term strategic goals. For example, projects like the **Rosendale Bridge Replacement** and the **Leggs Mills Bridge Repairs** were given high priority due to the need to address safety concerns and prevent further structural damage. Projects are assigned a priority level—high, medium, or low—based on their urgency and overall community benefit. This process ensures that limited resources are directed toward projects that have the greatest positive impact and support the County's infrastructure and community needs.

## Definitions and Criteria for Capital Projects

The **Definitions and Criteria for Capital Projects** in Ulster County help identify which projects qualify as capital investments and set guidelines for how they are evaluated. A capital project typically involves the construction, renovation, or purchase of physical assets that have a long useful life, such as buildings, bridges, or major equipment. For instance, the **Fleet Electrification Program** and **HVAC/Weatherization Upgrades for Various Buildings** are considered capital projects because they improve the County's operational efficiency and reduce long-term costs. To be considered a capital project, investments must contribute to the County's infrastructure, improve public services, or support long-term goals like sustainability and safety.

# 2025 Capital Budget

Ulster County uses a **1-year Capital Budget** as part of a larger **6-year Capital Improvement Program (CIP)** to provide both short-term flexibility and long-term planning. The 1-year Capital Budget focuses on the projects that will receive funding and begin work during the upcoming fiscal year. This ensures that immediate priorities are addressed, and resources are allocated to the projects that are ready to start.

However, many capital projects, such as major construction or infrastructure improvements, take several years to plan and complete. That’s why the County has a 6-year CIP – to identify future needs, prioritize long-term investments, and ensure that projects align with strategic goals over time. The 6-year program acts as a roadmap, allowing Ulster County to anticipate funding needs and adjust plans as conditions change.

By having a 1-year Capital Budget, the County can make adjustments each year to respond to changes in funding, project readiness, or community needs, while still keeping an eye on the bigger picture through the 6-year plan.

A detailed 1-year Capital Budget is included in the Executive Operating Budget as well - and can be found here: <https://county-ulster-ny-budget-book.cleargov.com/16981/capital-improvements/capital-improvements-one-year>.

**FY25 Total Capital Requested**

**\$122,868,739**

**FY25 Total Funding Requested**

**\$116,641,136**

**FY25 Total Funding Requested by Source**

<span style="color: blue;">●</span> County Share	<b>\$77,464,984</b>	66.41%
<span style="color: green;">●</span> Federal	<b>\$16,347,179</b>	14.01%

<span style="color: #70AD47;">●</span> Operational Costs	<b>\$0</b>	0.00%

# Capital Improvement Program 2025- 2030

A multi-year **Capital Improvement Program (CIP)** is a valuable tool for planning and managing large projects over several years. It helps the County make smart, long-term decisions about how to invest in infrastructure, public buildings, and equipment. Because many capital projects—like road construction, facility upgrades, or technology improvements—take multiple years to complete, a multi-year plan allows the County to prioritize these projects based on needs, costs, and available funding.

The CIP helps the County see the "big picture" by looking beyond just the next year. It acts as a roadmap that shows how each project fits into the County’s long-term goals, such as enhancing public safety, supporting economic development, or maintaining and improving community assets. With a clear multi-year plan, the County can spread out expenses, reduce the risk of unexpected costs, and avoid delays by planning funding and resources in advance.

Additionally, having a multi-year CIP makes it easier for the County to communicate its priorities to residents, businesses, and funding partners. This transparency builds trust and ensures that capital investments are made in a way that aligns with community needs and expectations.

**FY25 - FY30 Total Funding Requested by Department**

**Funding by Department Totals (all years)**

● Culture and Recreation	\$15,075,598	4.26%
● Education	\$50,794,659	14.35%
● General Government	\$120,011,332	33.91%
● Health	\$381,961	0.11%
● Home and Community Services	\$7,787,138	2.20%
● Public Safety	\$29,312,028	8.28%
● Transportation	\$130,558,240	36.89%

### FY25 - FY30 Total Funding Requested by Source

*Funding by Source Totals (all years)*

● County Share	\$251,004,057	70.87%
● Federal	\$50,873,779	14.36%
● Other	\$1,450,000	0.41%
● State	\$50,843,121	14.36%

### FY25 - FY30 Capital Cost Breakdown

*Capital Cost Totals (all years)*

● Capital Costs	\$353,920,956	100.00%
● Operational Costs	\$0	0.00%

# Capital Improvement Program - Project Types

**Project Types** refer to different categories of projects that help the County identify and manage its investments. Each type is based on what is being built, bought, or improved. Grouping projects this way helps the County organize its budget and understand what kinds of resources are needed.

Ulster County uses the following project types:

- **Buildings and Facilities:** Projects that involve constructing new buildings, renovating existing ones, or maintaining public facilities like community centers, government offices, and libraries. For example, adding a new wing to a courthouse would fall under this category.
- **Computer Software:** Projects that focus on buying or developing software programs to improve County operations, such as budgeting software, records management systems, or public safety applications.
- **Computers & Related Equipment:** Projects that include purchasing or upgrading computer hardware, such as desktops, laptops, servers, and networking equipment. These projects help support County staff and services with updated technology.
- **Other Equipment:** Projects that cover buying or replacing equipment that doesn't fit into other categories. This could include things like office machinery, medical devices, or specialized tools needed for County operations.
- **Other Improvements:** Projects that involve upgrading or adding new features to existing facilities or public spaces, but don't involve full construction. Examples include landscaping, lighting upgrades, or installing new playground equipment.
- **Roads and Bridges:** Projects that involve building, repairing, or improving roads and bridges throughout the County. This includes repaving roads, strengthening bridges, or adding new lanes to reduce traffic.
- **Vehicles and Wheeled Equipment:** Projects for buying or replacing vehicles and equipment with wheels, like trucks, buses, police cars, snow plows, and maintenance vehicles. These are essential for transportation, public safety, and maintaining County roads and facilities.
- **Water and Sewer:** Projects that involve constructing or upgrading water and sewer systems to ensure clean drinking water and proper wastewater management. This includes replacing old pipes, building water treatment facilities, or extending water service to new areas.

FY25 - FY30 Capital Costs By Project Type

● Building and Facilities	\$163,311,413	46.14%
● Computer Software	\$674,220	0.19%
● Computers and Related Equipment	\$1,790,266	0.51%
● Other Equipment	\$1,705,000	0.48%
● Other Improvements	\$63,333,446	17.89%
● Roads and Bridges	\$67,018,888	18.94%
● Vehicles and Wheeled Equipment	\$48,963,522	13.83%
● Water and Sewer	\$7,124,201	2.01%

<b>Total Water and Sewer</b>	<b>\$7,124,201</b>

# Capital Improvement Plan - Departments

**Department Groupings** are categories that organize capital projects based on the type of services that are to be provided. Each department grouping shows how the County is investing in specific areas, such as public safety, health, or transportation. Grouping projects by department helps the County plan and budget for improvements that directly support the unique goals and responsibilities of each department. Ulster County uses the following Department Groupings:

- **Culture and Recreation:** This category includes projects that focus on improving parks, recreational areas, and cultural spaces. It might include building or upgrading community centers, creating trails, or renovating public parks. These projects help provide places for residents to enjoy outdoor activities, cultural events, and leisure time.
- **Education:** Projects in this category are focused on educational facilities and resources, such as upgrades to schools, libraries, or college campuses. For example, projects might involve adding new technology, improving classrooms, or expanding educational programs to better serve students and the community. These projects will predominately be lead by and located at the SUNY Ulster Campus.
- **General Government:** This category covers projects that support the operations of County government, such as building or maintaining office spaces, storage facilities, or public buildings. These projects help ensure that the County has the resources it needs to effectively serve residents and run its daily operations.
- **Health:** Health-related projects involve the construction, renovation, or improvement of facilities that provide health services to the community, such as mental health centers, hospitals, or public health offices. These projects are designed to improve access to care and support the overall well-being of residents.
- **Home and Community Services:** Projects in this category focus on services that enhance residents' quality of life and support community development. This can include infrastructure projects like water and sewer systems, affordable housing developments, or neighborhood revitalization efforts.
- **Public Safety:** This category includes projects that help protect the public, such as building or upgrading police stations, firehouses, emergency communication centers, or purchasing safety equipment. These investments ensure that the County has the resources needed to keep people safe and respond to emergencies.
- **Transportation:** Transportation projects involve building and maintaining roads, bridges, and public transit systems. They may include repairing bridges, paving roads, or upgrading public bus systems. These projects are aimed at improving the County's infrastructure and making it easier for residents to travel safely and efficiently.

FY25 - FY30 Capital Costs by Department

### Culture and Recreation

Project No. / Category	FY2025	FY2026	FY2027	FY2028	FY2029
635 ARPA - Aid to Parks	\$1,579,598	\$0	\$0	\$0	\$0
TBD Planning - Open Space & Recreation Program	\$0	\$500,000	\$0	\$500,000	\$0
648 Planning - U&D Corridor Trail -Shandaken Phase 1	\$1,316,000	\$4,250,000	\$0	\$0	\$0

# ARPA - Aid to Parks

## Overview

<b>Request Owner</b>	Nathan Litwin, Director of Recovery and Resilience
<b>Department</b>	Culture and Recreation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	635
<b>Estimated Start Date</b>	07/19/2022
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

244 Fair Street

## Description

This project aims to make fair investments across the County via a partnership with its municipalities to establish a program to award grants of up to \$100,000 for eligible municipal parks projects. In no event shall the County support more than 50% of the cost of a single project. Up to 25% of the municipality's matching contribution may be through in-kind services subject to the County's approval.

Parks are proven to provide both health and economic benefits to local communities, and also offer safe and affordable opportunities for outdoor recreation, dog walking, bicycling, and opportunities for citizens to spend time with family and friends.

The grant program is administered from the County Office Building, 244 Fair Street. The funded municipal parks locations are identified in the signed County grant contracts and are located in the municipalities of: Rochester, Olive, Hurley, Marlborough, Rosendale, Village of Saugerties, Village of New Paltz, Shawangunk, Wawarsing, Gardiner, Esopus, Plattekill, and Lloyd. Four additional awarded municipalities are working toward a signed contract with the County.

# Planning - Open Space & Recreation Program

## Overview

<b>Request Owner</b>	Dennis Doyle, Director of Planning
<b>Department</b>	Culture and Recreation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2026
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

244 Fair Street

## Description

This program will provide matching funds for open space protection, farmland preservation, and expansion of public recreational opportunities consistent with the County's adopted Open Space Plan. Matching funds will be used for conservation easements, property acquisition, and filling of gaps in the County's multi-use trail system.

The Program recognizes that the County has invested considerable amounts of American Rescue funds to improve trails and close critical gaps. The proposed match will be no more than 50% of the acquisition costs. Municipal support for any acquisition will be necessary as shown by resolution and/or actual funding.

The County will do a call for projects in 2025 - note this funding will match the timing for the next funding round by the state for farmland protection grants.

Project addresses will be established as specific projects are planned and created. Until such time, the address will be listed as the Department of Planning.

# Planning - U&D Corridor Trail -Shandaken Phase 1

## Overview

<b>Request Owner</b>	Dennis Doyle, Director of Planning
<b>Department</b>	Culture and Recreation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	648
<b>Estimated Start Date</b>	08/1/2022
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

## Description

This project will construct a 5.0 mile long abandoned stretch of the U&D Corridor from Highmount to Big Indian in two phases.

The first phase of the project will offer an amazing opportunity to access the Shandaken Wild Forest area with its expansive network of hiking, mountain biking, and cross-country trails, as well as, provide access to the Belleayre Day Use Area. The Trail will also connect the local community of Pine Hill to these established facilities and act as a regional economic driver, adding a sustainable attraction for users of all abilities within the area.

Phase 2 provides access directly from Route 28 at Big Indian and replaces the RR bridge over the Esopus.

The Ulster County Transportation Council has completed a feasibility study of the project with concept level cost estimates, environmental information and potential phasing. Phase 1 is 2.5 miles with an anticipated cost of \$4.9 million. The entire project cost is anticipated to cost \$11.5 million. The County has been awarded a \$3.9 in Transportation Alternatives Program funds for phase 1. \*NOTE COSTS AND SCHEDULE ARE FOR PHASE 1 ONLY\*

## Project Location

Delaware and Ulster Railroad

## Description

This project will construct a 2.5 mile trail along an abandoned stretch of the U&D Corridor from Belleayre Day Use Area to Big Indian. This will be completed as the Phase 2 of a 5 mile trail proposed from Highmount to Big Indian.

This phase of the trail will cross the Esopus Creek via a major bridge. Completing this project will offer the opportunity to access the Shandaken Wild Forest and trail from the Town Park and Big Indian with proximate access from Route 28.

Phase 1 provides access from Highmount to the Belleayre Day Use area as well as the lands of DEC and ORDA and is currently under design

# SUNY - Roof Replacement and Exterior Site Work

## Overview

<b>Request Owner</b>	Irena Wisneski, Admin Services Specialist
<b>Department</b>	Education
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Various
<b>Estimated Start Date</b>	01/1/2018
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

SUNY Ulster

## Description

These projects are to address aging exterior infrastructure at the college campus. Projects included will prolong the useful life of various campus buildings and assets and will generate operating budget savings for the College.

Current Capital Projects include: 466,468,486,489,493, 624. The current planned work includes:

- 2025: Hasbrouck and Clinton roof replacement and stone facade repairs; Replacement of Hasbrouck and Clinton windows.
- 2026: Vanderlyn Hall roof replacement and stone facade repairs; Replacement of the remaining doors and windows on campus.
- 2027-2030: Projects to be determined based on new Facility Master Plan.

## Description

This project provides funding for the construction of a new Plant Operations Facility on the Stone Ridge campus. This project replaces an existing temporary building that was installed in the early 1980s. The Plant Operations Facility will include garage space, office space and storage space for the Plant Operations Department.

This project also includes HVAC upgrades to replace large units with energy efficient heatpumps and PTAC units.

- 2025: Includes major construction of the Plant Operations Facility, HVAC upgrades including Energy Audit to be completed in 2025. Additional HVAC projects include the design and replacement of several large ground units servicing Vanderlyn Hall; Major Renovation of the Plant Operations Facility; Minor Critical Maintenance.
- 2026: HVAC upgrades include the design and replacement of smaller units servicing Vanderlyn, Hardenberg, and Burroughs buildings and includes replacement of in-wall PTAC units; Minor Critical Maintenance.
- 2027-2030: Projects will be determined based on the updated Facility Master Plan.

Current capital projects include Capital Projects No. 542 & 701.

# ARPA - Solar and EV Charging Infrastructure

## Overview

<b>Request Owner</b>	Nathan Litwin, Director of Recovery and Resilience
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	674
<b>Estimated Start Date</b>	04/18/2023
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

244 Fair Street

## Description

This project aims to make solar and EV charging infrastructure investments across the County through a municipal grant of \$2.5 million. Project addresses will be established as specific projects are planned and created. Until such time, the address will be listed as the County Office Building.

# DPW - Boiceville Substation Improvement

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	638
<b>Estimated Start Date</b>	01/1/2022
<b>Estimated Completion Date</b>	04/1/2026

## Project Location

8 Cabin Hill Road

## Description

This capital funds concrete slab replacement work at the Boiceville Substation where concrete slabs have degraded extensively from salt exposure and are in dire need of replacement. Work consists of replacing overhead garage doors, adding radiant floors, floor drains and new drywall, insulation of exterior walls in garage areas and replacement of windows; removal of tool storage rooms to increase vehicle area floor space. In addition, the exterior of garage and salt shed is to be painted.

The salt shed roof is to be removed and replaced and an architect will provide a structural feasibility report for potential photovoltaic system installation. Anticipate project completion in April 2026.

# DPW - Building Management System Control Upgrades

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/1/2027

## Project Location

## Description

This project is to implement recommendations of DPW staff in conjunction with the Ulster County On-Site Energy Manager to upgrade the building management systems (BMS) for nine buildings. Three buildings have existing BMS that were installed and maintained by controls companies that UC is moving away from using. Five buildings have BMS that are decades old and not utilized by UC staff to maximize building efficiency due to age and lack of current features.

The 368 Broadway building currently has only local manual controls in place, but would benefit from a BMS to increase energy efficiency and comfort control. The type of replacement/repair will vary depending on the building(s) renovated.

The project will decrease both operation and maintenance costs through implementation of the recommendations, resulting in energy efficiency and conservation. Work for this project includes the replacement of BMS at the Public Works Building, Golden Hill Office Building, Ulster County Office Building, Probation/Restorative Justice, Records Storage, Trudy Resnick Farber, UC Court House, UC Office Complex/DSS, and 368 Broadway.

# DPW - County Fleet Vehicles

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Equipment
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

315 Shamrock Lane

## Description

This project is for the replacement of county fleet vehicles on a scheduled basis.

Projects are established on an annual basis with a new corresponding Capital Project number set annually.

These vehicles will replace aging vehicles (ranging from 10 to 15 years old) in the County's fleet. Central Auto will purchase these vehicles according to the 5 year plan to replace old, high mileage automobiles that are breaking down on a regular basis.

Current capital project numbers include 617, 656, and Capital Project No. 697 of 2024. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%

# DPW - Department Relocation Management

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

244 Fair Street

## Description

In alignment with the results of the ongoing space needs study, this project will move County Departments to various new locations, maximizing the use of county-owned properties and reducing the reliance on rental space.

A number of County departments are currently housed in space that is not ideal for their operations. This project will allow departments to move to more optimal space, allowing for existing space to be updated and upgraded. Additionally, some departments currently located in rented office space will be relocated to county-owned space.

# DPW - DSS Basement Restoration

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	548
<b>Estimated Start Date</b>	11/1/2019
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

1061 Development Court

## Description

The bottom level portion of the DSS basement is flooding and being infiltrated with water. This project is to find the cause of the flooding and infiltration from the foundation and slab as determined by engineers.

Upon review of the engineer's findings, the county will take the best course of action for repairs to the foundation and flooring.

# DPW - Elevator Modernization Projects

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	08/1/2023
<b>Estimated Completion Date</b>	12/31/2027

## Project Location

315 Shamrock Lane

## Description

This project is to modernize elevators at the County Courthouse and the Department of Public Works Administration Building. The condition of the physical equipment merits planning now of either total modernization of all elevators included in this study at this time, and, or partial modernization.

These elevators can no longer be considered reliable and problems will increase in frequency and severity. This modernization project will address life safety communication; emergency power operation; security; and ADA handicapped design requirements which will interface with building standards in the area of signals, graphics and emergency device interfaces.

There are several factors that justify an elevator modernization project, including the availability of spare parts, which is declining significantly, forcing the mechanics to repair components that are normally replaced. In addition, many of these parts can not be repaired any further. This situation can lead to having the elevator out of service until a modernization can be completed.

Projects will be established as specific projects are planned in future years. The Ulster County Office Building's elevators were modernized under Capital Project No. 673 in 2024.

- 368 Broadway
- Courthouse
- Golden Hill Office Building
- DPW Building on Shamrock Lane

# DPW - Facility Improvement Program

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

## Description

The project will be utilized for DPWs job order contracting service (JOCS) for small to medium scale interior and exterior projects, consisting of renovation of walls, flooring, windows, signage, flooring, lighting, sheetrock, ceilings along with public areas such as lobbies and restrooms. Exterior improvements such as side-walks, lighting and landscaping. This Capital project sets aside funding in response to 2023 facility condition assessment findings for various improvements and to keep infrastructure operational. Separate capital projects numbers will be established as individual projects are identified and implemented.

Individual Capital Project # will be established in 2025.

In 2024, Capital Project No.s 693, 694, & 695 were established pursuant to Resolution No 140 of 2024. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

CP No. 693 Improved 300 ft of curbing and 400 ft of ADA compliant sidewalks near entrances and parking lots; removed failing bollards, and restored aging staircases with an anti-slip surface at Golden Hill Office Building and SUNY Kingston, 368 Broadway in Kingston, and at Development Court.

CP No. 694 upgraded various electrical equipment, including replacing seven (7) electrical panels at Development Court on Albany Avenue, replaced two (2) three-phase transformers at Golden Hill Office Building to ensure an effective, reliable and safe electricity supply.

CP No. 695 improved building exteriors, such as repaired and improved Exterior Insulation and Finish Systems (EIFS) infills at 368 Broadway and Development Court to eliminate water infiltration near the windows, expansion joints and entrances, and repaired deteriorated sections of EIFS near doorways and window sills at the Hall of Records.

# DPW - Fairground Improvements

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	550
<b>Estimated Start Date</b>	09/30/2019
<b>Estimated Completion Date</b>	08/1/2025

## Project Location

Ulster County Fairgrounds

## Description

This project is to upgrade domestic water and electrical systems at the Ulster County Fair Grounds. A new sanitary waste collection station was completed in 2022. The new sanitary waste collection stations collect waste from motor homes and travel trailers for use during large events at the Ulster County Fairgrounds.

The scope of work currently includes the following:

- Replace the existing domestic water supply system, including building, pumps, storage tanks, controls, chlorination system and distribution piping.
- Upgrade portions of the electrical system, including; panels, distribution, power and lighting.

Anticipate project completion by August 2025.

# DPW - Fire Alarm and Access Control Upgrade Program

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Various
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2027

## Project Location

Ulster County Department Of Social Services

## Description

This project funds new fire alarm systems, access control features, and security cameras in county-owned buildings. It is critical to update the facility's emergency equipment and access control features in working order and correct any deficiencies in the equipment. Many buildings have equipment that is aging and in need of replacement.

Many facilities require new components for a safe work environment. As annual inspections are conducted, it is necessary to upgrade critical safety systems and ensure compliance with fire code throughout Ulster County facilities.

Project addresses will be listed as the Department of Public Works as specific projects are planned and created. The goal of this project is to provide a safe and orderly workplace. Current capital projects include Capital Project No. 692 for the Ulster County Office Building, Capital Project No. 700 for Development Court and Capital Project No. 681 for 368 Broadway Crisis Stabilization Center were identified and implemented in 2024.

- 2025: Development Court, DPW Warehouse, Golden Hill, Joys Lane.

# DPW - Geothermal at 368 Broadway

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

368 Broadway

## Description

The County is planning to install 32 geothermal wells in the parking lot for the heating and cooling system of the Community Wellness Hub at 368 Broadway in Kingston. When the parking lot is repaved after the geothermal drilling is complete it is a perfect opportunity to utilize green infrastructure to reduce stormwater runoff that contributes to Combined Sewer Overflows (CSOs) to the Rondout Creek from the Hasbrouck Sewershed. The lot re-design will create a welcoming space by improving the safety, aesthetics, and accessibility of the lot and pathways to the building. A sidewalk will be installed along the edge of the parking lot to fill gaps in the Empire State Trail.

The design of the system is intended to take place in 2025 with construction following in 2026.

# DPW - Golden Hill Office Building Interior Renovation

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	02/3/2025
<b>Estimated Completion Date</b>	12/31/2027

## Project Location

## Description

The proposed capital project aims to renovate the interior of the Golden Hill Office Building, located on Golden Hill in Kingston, New York. This building encompasses a total area of 39,600 square feet.

In 2023, the Ulster County Department of Mental Health relocated to 368 Broadway in the City of Kingston, leaving the Ulster County Health Department as the sole occupant of the building. The goal of this project is to optimize the use of space within the building.

The building's exterior is well-maintained, with adequate parking, a newly restored roof (as of 2022), updated curbing with ADA-compliant crossings, and two fully functioning elevators of sufficient size. The Fire Alarm System meets code requirements and is operational.

However, this project will address several interior issues, including repairs to leaking rubber expansion gaskets and pipe flanges in the mechanical room, as well as replacing aging cast iron boilers nearing the end of their service life. Additionally, the project will modernize outdated parabolic interior lighting and fixtures.

An architect will be selected to design the interior improvements and reconfigure office spaces to accommodate additional Ulster County departments, ensuring enhanced functionality and efficient space utilization. Pre-design and bid estimates are for roughly \$250.00 a square foot with inflation increases of 3.5%.

# DPW - Golden Hill Water Tanks

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2028
<b>Estimated Completion Date</b>	12/31/2029

## Project Location

61 Golden Hill Drive

## Description

After an interior inspection of the Water Tank and review of design cost estimates it is recommended the County pursue a full replacement of the Golden Hill Water Tower.

This project includes funding to replace the tower with a new glass lined tower which will require minimum preventative maintenance over the next 50 years.

The tank is older than 50 years with a life expectancy of 50 years. It is more cost effective to construct a new tank while the existing tank is operational than allocating funds for exterior and interior painting every 15 years. Interior painting would require a full shutdown for sandblasting and the rental of a temporary tank. The current capital is established (CP 495) for \$640,640 for safety upgrades and improvements. The funds that have not been spent will be reallocated to the replacement of the tank. There is grant funding available for a potential offset of up to 60%. In addition, the remaining expenses will be distributed based off of the Golden Hill Declaration of Reciprocal Easements.

# DPW - Government Operations Center

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	607
<b>Estimated Start Date</b>	12/31/2021
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

New Paltz Town Court

## Description

This project involves comprehensive architectural, engineering, and consulting services for the design and construction of the new Emergency Services Operations Center. The facility will house critical components such as the Ulster County Public Safety Answering Point (PSAP), the Emergency Operations Center (EOC), all divisions of the Ulster County Department of Emergency Services, and the Information Technology Infrastructure for Ulster County Government.

The project was divided into two phases. The first phase focused on site selection, community engagement, and space programming to ensure the center meets operational needs and community requirements. The second phase will encompass detailed site and building design services to finalize the facility's construction plans.

Phase one of the project is complete, and the County anticipates bidding the project out in early 2025. The County anticipates completion of construction in 2026.

Funding for essential equipment, specifically radio and telephone equipment for the PSAP, will be secured through Capital Project # 482 grant allocations.

# DPW - Historic Preservation of County Facilities

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2028

## Project Location

1 Dashville Road

## Description

This project will refurbish or stabilize the county's historic assets and reduce further damage and decay as a result of age. Targeted facilities include the following: Perrines Bridge in the Town of Esopus, Persen House in the City of Kingston, and the Hutton House on Golden Hill and any other historical building that may be applicable.

Grant opportunities will be pursued as specific projects are designed.

A capital project for Perrines Bridge is currently established under Capital Project No. 452.

# DPW - HVAC/Weatherization Various Buildings

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

733 Broadway

## Description

This project is to implement recommendations of the Climate Action plan in conjunction with routine replacement of HVAC/Weatherization equipment. The type of replacement / repair will vary depending on the building(s) renovated.

The project will decrease both operation and maintenance costs through implementation of the recommendations, resulting in energy efficiency and conservation. Work for this project includes the replacement of HVAC units at the County Court House, 1 Pearl Street, and 17 Pearl Street, and Hall of Records. NYSERDA CEC Program grant funding offset weatherization projects at the Carr building (1 Pearl St.) and the Department of the Environment (17 Pearl St.). Future HVAC upgrades are needed at 733 Broadway and the Ulster County Office Building in Kingston.

Previous Capital Projects for HVAC work are listed under Capital Project # 586. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Pump House Control Upgrade Kingston Water Department

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	04/1/2026
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

61 Golden Hill Drive

## Description

This project is for the installation of SCADA (Supervisory Control and Data Acquisition System) components at the Golden Hill pump house. This system allows for remote monitoring and control of water system components. Currently, personnel have to go to the site to make control changes.

These improvements may be done in conjunction with the City of Kingston Water Department and may be included in the Golden Hill Water Tower project depending on the results of the internal tank inspection and subsequent engineer's reports.

Ulster County Law Enforcement Center

## Description

This program replaces aging roof systems on County-owned buildings that are reaching the end of their useful lives. Recent projects include the Hall of Records Storage Building, Golden Hill Office Building, 733 Broadway, New Paltz Pool Pump house and the County Courthouse.

Future sites include the Development Court office building (DSS only), Boiceville Substation, Ulster County Office Building, Persen House, and the Ulster County Law Enforcement Center.

This work is to be done in conjunction with a rooftop solar feasibility study. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Solar Array Siting Project

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

17 Pearl Street

## Description

This project aims to maximize the use of solar arrays on county property. Solar arrays come in many different forms and uses, such as covered carports; stand-alone ground-mounted; rooftop; and side-mounted to a building, to name a few design options. The project will include completing electrical upgrades to building electrical systems to accommodate new equipment for solar arrays. This project will directly reduce greenhouse gas emissions from fossil-fuels. The goal of this project is to develop onsite renewable solar energy to meet existing and future electricity demands. Solar energy is the fastest growing and most affordable source of new electricity in the nation costing less than \$2.00 per watt to construct. Solar panels work in most locations, which means more energy production and less greenhouse gas emissions (GHGs). Current Capital Project No's include 653 for the Hall of Records Rooftop Solar Array.

Project addresses will be established as specific projects are planned and created. Until such time, the address will be listed as the Department of the Environment.

Current Capital Projects include No. 653 for the Hall of Records Solar Siting. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

Capital Project 705 Trudy Resnick Farber Building Rooftop Solar Array Project established through Resolution 468 of September 2024

# DPW - Trudy Resnick - Farber Office Building Repairs

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

50 Center Street

## Description

This project will be a 2 phase project:

The first phase will be for light to medium building maintenance and renovation, including a new roof and basic upkeep in 2024. In-house labor is to be used for a portion of the work.

The second phase of this project is for the renovation and re-imagining of the Trudy Resnick Farber building in Ellenville, with the goal of transforming it into a central hub of community resources. This project will leverage significant community input into the plan and offerings of the site. Design is planned for 2025 with full construction costs to be determined after public input has been included in the plan.

Additional Phase 2 upgrades include a new roof with a solar array and public E/V charging stations to improve energy efficiency throughout the building.

Grant opportunities will be pursued.

# DPW - Ulster County Pool Upgrades

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	03/1/2025
<b>Estimated Completion Date</b>	05/23/2026

## Project Location

241 Libertyville Road

## Description

The Ulster County Pool, a vital community asset established in the mid-1970s, experienced significant usage in 2023, with over 17,625 visitors and an average daily attendance of 220. However, shortly after the pool's reopening in June 2024, maintenance personnel from the Department of Public Works (DPW) observed a substantial drop in water levels. An investigation revealed that the piping beneath the pool had failed in several locations, necessitating major repairs and closure for the remainder of the season. This closure has had a considerable impact on the community, with neighboring municipal pools reaching full capacity and turning away visitors.

Despite ongoing investments in maintenance and capital improvements, recent issues have underscored the need for substantial repairs and upgrades. The facility's current condition, including outdated features and safety concerns, highlights the necessity for a comprehensive overhaul to ensure its durability and functionality for future use.

The Department of Public Works is now seeking to undertake a significant upgrade of the Ulster County Pool. Proposed improvements include replacing the pool's bottom and main drain piping, installing a new stainless steel gutter system, and re-plastering the pool to address and prevent leaks. Enhancements will also focus on accessibility, with plans to incorporate zero-depth entry ramps and transform the wading pool into a modern spray ground, making the facility safer and more attractive to a diverse range of users. Additional upgrades will include new ladders, safety equipment, and replacement of the decking to improve both safety and the overall appearance of the pool.

In alignment with its commitment to environmental sustainability, Ulster County aims to reduce the pool's reliance on toxic chemicals by updating the chemical control system. This includes implementing a combined saline and chlorine disinfection system to minimize chlorine usage while maintaining effective sanitation.

To support these upgrades, the County has been awarded a \$3.9 million New York Statewide Investment In More Swimming (NY SWIMS) Program grant. This program requires a 20% local match, which will help offset the costs for taxpayers.

## Images

## Details

**New Capital Project?:** Yes

**Type of Project:** Refurbishment

**Routine?:** No

**Will This Capital Have Any Future Operating Impacts?:** This capital project should reduce the number of required life-guards due to the addition of a splash pad in place of the kiddie pool, and new chemical controls related to a combined saline and chlorine disinfection system which would lessen the amount of chlorine required for effective disinfection.

# Environment - EV Charging Stations

## Overview

<b>Request Owner</b>	Europa McGovern, Department of the Environment
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	644
<b>Estimated Start Date</b>	08/1/2022
<b>Estimated Completion Date</b>	12/31/2027

## Project Location

1 Danny Circle

## Description

This project is to install EV charging stations (Level 2 and/or DC fast chargers at priority locations) at multiple sites to support fleet operations, workplace, and public charging. The capital supports Executive Order 1 of 2023 and the Ulster County Government Operations Climate Action Plan action VF-5: Install additional EV charging stations to support fleet operations, as well as the County's Sustainable Green Fleet Policy and fleet electrification mandates.

Potential sites include: UCLEC, DPW Shamrock Lane and/or heavy vehicle maintenance center (Quarry), DSS (front), Courthouse, Trudy Resnick Farber, and other County facilities.

Other sites may be added as needed in coordination with DPW and the Fleet Manager. Available grant and/or rebate funding for qualifying public and workplace chargers, including via the NYSERDA Charge Ready NY program and the Central Hudson Light-duty EV Make Ready program will be accessed as applicable.

# Environment - UCAT - Rooftop Solar

## Overview

<b>Request Owner</b>	Europa McGovern, Department of the Environment
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	574
<b>Estimated Start Date</b>	09/1/2022
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

1 Danny Circle

## Description

UCAT Phase 2.2: This project is for the design and construction of a rooftop solar array at UCAT. The estimated capacity is 204KW DC. There are anticipated MW Block incentives from NYSERDA (discounted from County contracted pricing), a \$100,000 NYS State and Municipal Facilities grant awarded via DASNY, and up to 30% of project costs additionally reimbursable after completion via the Federal IRA Direct Pay Incentives.

This capital supports both the implementation of the Ulster County Government Operations Climate Action plan and the transit electrification initiative. UCAT Phase 2.1 additionally includes EV infrastructure for electric bus charging and a gas generator to provide backup power for the facility.

# Planning - Cornell Street Park

## Overview

<b>Request Owner</b>	Dennis Doyle, Director of Planning
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/15/2025
<b>Estimated Completion Date</b>	10/15/2026

## Project Location

## Description

The Cornell Street Park is a small (pocket park) adjacent to the Mid Town Linear Park (Rail Trail) at Cornell Street in the area that once housed the rail yard for the Ulster and Delaware Railroad. This area would be converted with additions of active play areas and landscaping. Designs will be finalized after extensive public outreach as to what should be there. Items that will be considered include:

Fitness Stations, Grove of Indigenous Tree, Art Park for Sculpture, Murals on Existing Building/ Walls, Street Entry Plaza w/ Benches, Mountain Slide, Steam Engine Play Equipment, Colorseal Train Track Mountain Lodge Play Equipment Railway Carriage Play Equipment Outdoor Classroom/ Seating Area Shade Trees

# Planning - Golden Hill Solar Project

## Overview

<b>Request Owner</b>	Dennis Doyle, Director of Planning
<b>Department</b>	General Government
<b>Type</b>	Capital Improvement
<b>Project Number</b>	704
<b>Estimated Start Date</b>	04/1/2025
<b>Estimated Completion Date</b>	04/30/2026

## Project Location

## Description

This project is for the construction of solar facilities associated with the Golden Hill affordable housing project - the County has received a NYSDEC grant that is attributable to the project. However, the county must own the solar facility.

The county will take the necessary easement over the project to ensure access. Maintenance for the facility will be the Golden Hill developers' responsibility. The size of the facility is estimated to be 700kw.

# UCIS - IT / Enterprise Service Management Software

## Overview

<b>Request Owner</b>	Alan Macaluso, Director Information Services
<b>Department</b>	General Government
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	06/1/2025

## Project Location

## Description

The County's IT Service Management (ITSM) software (Cherwell) will be at its end of life in Q3 2025 and will need to be replaced with a modern, more capable Service Management platform.

This, combined with the chronic interdepartmental workflow challenges (ex: PDF and paper-based forms) provides an opportunity to replace Cherwell with an Enterprise Service Management (ESM) solution to extend IT Service Management (ITSM) principles and practices across the entire County.

This capital will improve operations, service delivery, and automate business processes across multiple departments (IS, Personnel, Finance, Safety) by providing a unified platform for managing services, workflows, and support.

This request is for the implementation and first year licensing/subscription costs of the project.

# UCIS - Network Detection and Response (NDR) software

## Overview

<b>Request Owner</b>	Alan Macaluso, Director Information Services
<b>Department</b>	General Government
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

25 South Manor Avenue

## Description

As part of a layered Cybersecurity program, Network Detection and Response (NDR) capabilities, with enriched analytics and reporting, are crucial for Information Services to maintain operational effectiveness.

Modern Cybersecurity best practices recommend NDR as part of a comprehensive Cybersecurity technology infrastructure that integrates with existing Cyber technologies such as CrowdStrike (EDR), LogRhythm (SIEM), modern ITSM/ESM Platforms.

# UCIS - Operations and Data Center Move

## Overview

<b>Request Owner</b>	Alan Macaluso, Director Information Services
<b>Department</b>	General Government
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

15 Joys Lane

## Description

Due to structural conditions at Information Services' current location at 25 South Manor, it is desired to move the data center of the county.

A plan to move the department will require networking equipment infrastructure that will support both the secondary data center, distribution/access points and WiFi for departmental operations.

A combination of contractual and in house labor will be used to accommodate this move.

<b>Type</b>	Capital Improvement
<b>Project Number</b>	598
<b>Estimated Start Date</b>	10/1/2021
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

368 Broadway

## Description

Ulster County will seek to create a Mental Health and Substance Use Recovery Center to provide our residents a single location that provides the full continuum of care for people dealing with mental health and substance use related illness.

For too long, Mental Health and Substance Use Recovery Services have been underfunded by Federal, State and local governments, and across the country we are in a crisis. With the investment of American Rescue Plan funds to support capital improvements to build a space, and with increased County operating funds towards the Department of Mental Health, we will begin to help the community heal by providing better access to coordinated services. This proposal will support building a Crisis Stabilization Center for those experiencing an acute mental health crisis.

The Center will serve youth and adults, who will be able to stay in the center for up to 23.5 hours. During their stay, individuals will be seen by clinical staff as well as certified peer recovery advocates. They will be referred to services that best meet their unique needs, and a case worker will provide a warm handoff to those services and provide follow-up care coordination. \$2,000,000 of the project costs is for acquisition of 368 Broadway, a 30,000 sq. ft. facility in the City of Kingston that will be renovated to serve the County's needs.

## Project Location

114 New York Highway 28

## Description

\$2,000,000 has been provided to the Town of Ulster as a subrecipient of ARPA-SLFR funds. The town will run a project to extend water and sewer infrastructure under the New York State Thruway in order to benefit a planned redevelopment of the Quality Inn and Suites hotel site (114 Route 28) into supportive housing for individuals experiencing homelessness.

The purpose of this project is to utilize ARPA funds for water and sewer infrastructure investments that assist the property at 114 Route 28 and its conversion to permanent supportive housing.

## Overview

<b>Request Owner</b>	Nathan Litwin, Director of Recovery and Resilience
<b>Department</b>	Home and Community Services
<b>Type</b>	Capital Improvement
<b>Project Number</b>	629
<b>Estimated Start Date</b>	04/22/2022
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

## Description

This project will create a process to prioritize, evaluate, investigate, and reuse dozens of properties for community and economic benefit that are languishing and are unable to be sold at the Ulster County Public Auction because of potential hazards. Properties will first be prioritized by considering the following factors:

- Assessed value/amount of back taxes owed;
- Reuse potential;
- Community blight;
- Ease of record evaluation; and
- Potential to work with partners (such as NYS DEC and EPA).

After the site has been investigated and remediated (as necessary), and any environmental liens have been released, the County will foreclose upon the properties for disposition. As part of each property's remediation plan, the County will identify potential reuses in collaboration with local officials. The alternatives available for disposition include:

- Normal auction process
- Continue to hold for a county purpose – open space, drainage, solar installation etc.
- Sell to a municipality for a municipal purpose
- Surplus to an LDC for a specific purpose – housing, economic development, etc.

# ARPA - Geothermal Silver Gardens

## Overview

<b>Request Owner</b>	Nathan Litwin, Director of Recovery and Resilience
<b>Department</b>	Home and Community Services
<b>Type</b>	Capital Improvement
<b>Project Number</b>	631
<b>Estimated Start Date</b>	04/19/2022
<b>Estimated Completion Date</b>	02/1/2026

## Project Location

43 Argent Drive

## Description

RUPCO, a non-profit affordable housing provider, will receive \$600,000 as a federal sub-recipient of ARPA funding from Ulster County, to construct Silver Gardens, a senior Supporting Housing development on Argent Drive in the Town of Lloyd. The Silver Gardens low-income senior housing development will provide 57 one-bedroom units, with 10 marketed to seniors at an income level of 50% area median income, 13 units for seniors with an income level of 60% area median income, 5 units for seniors at an income level of 90% area median income, with the remaining 29 units reserved for frail elderly, those with HIV/AIDs, and those who experience chronic homelessness. All housing units will have the option to receive supportive services provided by RUPCO if eligible.

The ARPA funds transferred to RUPCO will specifically aid in the cost of constructing a geothermal ground source system for the purposes of heating and cooling and providing hot water to the proposed 57 housing units.

# ARPA - Green Energy Job Training

## Overview

<b>Request Owner</b>	Nathan Litwin, Director of Recovery and Resilience
<b>Department</b>	Home and Community Services
<b>Type</b>	Capital Improvement
<b>Project Number</b>	642
<b>Estimated Start Date</b>	01/1/2023
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

702 Broadway

## Description

This project is for ARPA funds to be used to support a three-year program manager position with the non-profit, Communities for Local Power. The position shall initiate and provide job training opportunities in the area of residential home air sealing, insulation, energy efficiency, energy testing, and other skill areas of residential energy efficient construction to support work to improve the efficiency of residential housing, particularly for low and moderate income homeowners.

This position is an expansion of the successful internship program initiated by CLP working with the Office of Employment Training, local contractors and others to provide job training in the area of energy efficiency, construction and improvements.

The Retrofit Program facilitated by RUPCO shall provide housing retrofit assistance services for single-family homes within Ulster County that are owned and occupied by households that earn eighty percent (80%) or below the Annual Area Median Income, as published annually by the United States Department of Housing and Urban Development (HUD). Eligible activities shall include housing retrofit assistance.

# ARPA - Water and Sewer Infrastructure

## Overview

<b>Request Owner</b>	Nathan Litwin, Director of Recovery and Resilience
<b>Department</b>	Home and Community Services
<b>Type</b>	Capital Improvement
<b>Project Number</b>	604
<b>Estimated Start Date</b>	04/1/2022
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

244 Fair Street

## Description

The purpose of this project is to create a Municipal Water and Sewer grant program in order to provide financial assistance for municipal water and sewer systems in Ulster County. Each proposal cannot exceed 33% of the total cost of each water or sewer infrastructure project, with a maximum match of \$500,000.00 per project.

Water and sewer infrastructure investments will safeguard public health, assist local economies, and facilitate conditions that are more conducive to business activity, tourism, and affordable housing development.

# Emergency Management - County Wide Radio System

## Overview

<b>Request Owner</b>	Everett Erichsen, Director of Emergency Communications
<b>Department</b>	Public Safety
<b>Type</b>	Capital Improvement
<b>Project Number</b>	482
<b>Estimated Start Date</b>	01/1/2018
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

61 Golden Hill Drive

## Description

This is a project to fund a countywide radio system for police, fire and EMS agencies to achieve interoperability and at the same time improve radio coverage. Components of the existing radio system are over 40 years old and provide only limited features. Newer technologies will allow greater functionality. In addition, this project will be used to replace the repeater system with a fully integrated simulcast system for the Common 911 Police Frequency. Currently, we operate separately on 3 mountain tops. The dispatcher and officer in the field must select an appropriate tower to transmit on. This is time-consuming and often times leads to an officer safety issue. The new system will allow us to transmit off of 6 mountain tops at the same time, increasing our coverage area significantly. The dispatcher and officer in the field will only have to choose one channel which to transmit on, which increases officer safety. This project includes the construction of a new radio tower site off Shear Rd in the Town of Saugerties.

The emergency services community is using an antiquated and fragmented radio system. Implementing an interoperable radio system throughout the entire county would allow for better and more efficient communications on a daily basis, and during large scale events. Aside from achieving interoperability, the overarching need in emergency services is for clear, dependable and accessible radio communications. The current system is archaic, not dependable and has limited coverage. This is a direct safety issue for our first responders, and it hampers their ability to best serve the public. System design has been completed, and the next phase of the project is for construction. This project will also address radio coverage issues in the greater Saugerties area and this site will help eliminate those issues thereby enhancing first responder safety.

# Emergency Management - Mobile Command Post

## Overview

<b>Request Owner</b>	Everett Erichsen, Director of Emergency Communications
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

238 Golden Hill Drive

## Description

The Ulster County Department of Emergency Services recognizes the essential need for communications across the various Emergency Services organizations that utilize various different radio systems. This practice, referred to as Interoperability, is critical in emergency service operations. The Department of Homeland Security has established a division called the Office of Interoperable Emergency Communications, which is directly attached to the Cybersecurity and Infrastructure Agency.

The replacement of our current mobile command post is a critical necessity for enhancing our defense and public safety capabilities. Our existing MCP, built in 2005, has served us well but is now approaching two decades of service. In the rapidly evolving landscape of emergency response and security management, this aging unit is at risk of technological obsolescence and decreased reliability. By transitioning to a two-vehicle system, we can significantly improve our operational efficiency and response capabilities. The radio communications vehicle will provide advanced, focused communication systems, while the mobile command post will be optimized for strategic decision-making and coordination. This split allows for more flexible deployment options, enabling us to respond more effectively to a wider range of scenarios.

Moreover, this new vehicle will incorporate cutting-edge technology, enhancing our ability to process data, maintain situational awareness, and coordinate complex operations. The increased reliability of a newer vehicle will reduce downtime and maintenance costs, ensuring our readiness for critical situations. By investing in this upgrade, we're not just addressing current needs but also future-proofing our capabilities. The new vehicles can be designed with adaptability in mind, allowing for easier updates as technology continues to advance. Additionally, this upgrade ensures our compliance with the latest safety and operational standards in defense and public safety. In an era where effective emergency response and security management are more crucial than ever, this transition represents a vital step forward in our ability to protect and serve our community.

## Project Location

Ulster County Law Enforcement Center

## Description

Ulster County is now looking towards a new universal traffic ticket and accident reporting system which fully integrates into our current records management system. This system has the capabilities built in to properly track every interaction with members of the public and their demographics ("stop data"). This is pending a grant approval for 50% match of cost.

This project will include new cloud-based software, installation and maintenance.

# Sheriff - Facility Garage/Impound Yard

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	06/30/2026

## Project Location

380 Boulevard

## Description

This project is to purchase a 100' x 200' steel building to house the Sheriff's Office specialty equipment and vehicles including: MRAP, NOC, MCP, Dive, UCERT1, UCERT2, 4 Boats, and 4 ATV's, with trailers. From time to time, equipment under investigation will also need to be stored. All items listed need to be stored in a safe, weather-proof environment to extend their useful life. Currently, there are vehicles outside, exposed to the weather. A new impound yard ( possibly 380 Boulevard) for the Sheriff's Office is required as the current location is being destroyed as of July 2022 and all impounded vehicles need to be moved.

This project would include establishing a location , excavation, engineering, foundation, electric, water/sewer, permits, and paving to build the garage and impound yard. The pricing estimate includes these additional expenses

2025 cost estimates are for initial design costs. Project estimates will be updated after the initial design is completed.

# Sheriff - Axon Body Worn Cameras

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	616
<b>Estimated Start Date</b>	01/1/2022
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

Ulster County Law Enforcement Center

## Description

The use of body-worn cameras (BWCs) by criminal justice practitioners (e.g., patrol, corrections, SWAT and other tactical responders) offers potential advantages in keeping officers safe, enabling situational awareness, improving community relations and accountability, and providing evidence for trial. Placing body-worn cameras (BWCs) on police officers improves the civility of police-citizen encounters and enhances citizen perceptions of police transparency.

The Sheriff's Office would contract with Axon for the purchase, maintenance, and cloud storage of all patrol body-worn cameras. The purchase of products began in 2024, and implementation will take approximately 1 year, with remaining products being purchased in 2025. This would be a 5-year payment plan.

# Sheriff - Axon In-car Camera Upgrade

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

Ulster County Law Enforcement Center

## Description

Currently, our fleet comprises 32 patrol cars equipped with Panasonic cameras. We propose upgrading these cameras to the Axon platform, thereby transitioning to cloud-based storage while seamlessly integrating with our existing system.

This upgrade is projected for the year 2025, with a budgeted cost of \$320,000.00. This transition to Axon will enhance data management and streamline our overall operational processes.

# Sheriff - Axon Taser Replacement

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2029

## Project Location

## Description

This project is to replace outdated and unsupported tasers used in the field by officers for less lethal actions.

The current tasers are becoming obsolete and un-repairable. This project will allow officers' body worn cameras to automatically turn on once tasers are removed from a holster.

This will be a 5-year plan. Current tasers were last purchased in 2018.

# Sheriff - BEARCAT G3

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	670
<b>Estimated Start Date</b>	01/1/2023
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

Ulster County Law Enforcement Center

## Description

This capital project funds the purchase of a Bearcat G3. This purchase will replace the current MRAP maintained by the County. The MRAP will be returned under the 1030 program as it is not owned by the County.

The Bearcat will be used in critical incident situations requiring an armored vehicle to safely transport personnel to the crisis scene and/or rescue people from it. The Bearcat would be covered under warranty, more reliable and better suited based on it's size and weight. The 2017-2022 anticipated cost and maintenance for the current MRAP is \$90,000.

The Bearcat would be specked out and built for the Sheriff's Office needs. Build time should be approximately one year.

# Sheriff - Flock LPR Upgrade/Replacement

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

## Description

Ulster County, spanning approximately 1,161 square miles, is home to around 182,000 residents across twenty towns, three villages, and one city. With approximately 2,303 miles of roadway, maintaining public safety on our highways remains a top priority for the Ulster County Sheriff’s Office and local law enforcement agencies.

Studies consistently demonstrate the pivotal role of motor vehicles in facilitating crime. Recognizing this, the introduction of Flock Safety technology stands to fortify our public safety infrastructure. By capturing license plate data on major highways entering and exiting Ulster County, Flock Safety empowers law enforcement to prevent, deter, and resolve criminal activities effectively.

The real-time alerts generated by Flock Safety’s system are invaluable, particularly during critical events such as Amber Alerts. By leveraging this technology, we can enhance our ability to better safeguard our communities. This technology serves as a force multiplier to all emergency management and every municipality in Ulster County.

# Sheriff - Jail Axon Body Cameras

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	675
<b>Estimated Start Date</b>	08/31/2023
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

Ulster County Law Enforcement Center

## Description

A substantial step towards enhancing transparency and accountability, our proposed implementation of Axon jail body cameras aligns with our commitment to modernizing law enforcement practices. With a grant amount of \$248,000.00 secured in 2023, and an application for an equivalent grant for 2024, we are poised to procure 60 cameras. This purchase, quoted at \$440,755.00, will contribute significantly to evidentiary documentation and procedural adherence, an additional \$40,000 in equipment will be purchased through county share.

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

Ulster County Law Enforcement Center

## Description

This capital is to replace costly kitchen and laundry equipment that is original with building. The 2024 request was for 2 counter top convection ovens, 1 PVC roller conveyor, 2 soup kettle warmers, 4 heated holding and proofing cabinets and 4 reach in refrigerators. The projected cost is \$50,000.00.

2025-2030 are projected at \$100,000.00 per year.

Current capital project numbers include 634, 671, and 706. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# Sheriff - Technology Purchase

## Overview

<b>Request Owner</b>	Melody Brooks, Sheriff Fiscal Assistant
<b>Department</b>	Public Safety
<b>Type</b>	Capital Equipment
<b>Project Number</b>	703
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2029

## Project Location

Ulster County Law Enforcement Center

## Description

This capital project is for the replacement of aging and outdated Sheriff Technology & Equipment. Current approved replacements include:

- Axon Drone License
- Axon Detective Interview Room Upgrades - Conforming to NYS Law Requirements
- Black Creek system upgrades for the Sheriff's Impound Yard
- Eventide software for the call recording system

# DPW - Big Pond Bridge Replacement (BIN# 3347000)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	11/30/2026

## Project Location

Las Vegas

## Description

The Big Pond Bridge (BIN 3347000), County Bridge No. 89, in the Town of Hardenburgh is in need of replacement.

Ulster County performed minor abutment repairs in 2023 and confirmed during that work that the bridge is beyond its useful life, requiring full replacement. This project intends to hire a consultant engineer and contractor to complete the work.

# DPW - Bridge Flag Response

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2022
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

315 Shamrock Lane

## Description

Biannual inspections of 158 county-owned bridges are administered by NYSDOT. Ulster County DPW receives yellow and red flags as an outcome of some of these inspections which require a response, sometimes an immediate emergency response. This capital sets aside funding in order to make repairs to County Bridges in response to inspection findings. These repairs are not large enough in scope to require an individual Capital Project, or may be temporary in order to keep infrastructure functioning until a Capital Project is established.

The NYSDOT biannual bridge inspection program resulted in Ulster County receiving 20 yellow flags and 1 safety flag in 2022. The number, type and costs of required responses will vary from year to year. As of June 24 2024, 1 red flag, 1 PIA flag and 4 yellow flags have been received.

Current capital project numbers include 660, 683. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Bridge Program

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2022
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

315 Shamrock Lane

## Description

This project seeks to repair deficient bridges utilizing in-house engineering and labor.

The County DPW continually identifies bridges to be replaced with in-house labor and engineering. In 2022 and 2023, the County replaced, the Oakis Bridge-3347060 in the Town of Shandaken, Broadstreet-3346710 Hollow Bridge (Shandaken), and the Lyonsville Bridge-3347300 (Marbletown). In 2024 the County anticipates completion of Warren Bridge-3346690 (Olive), Seager Bridge-3346540 (Hardenburgh), Gould Bridge-3346840 (Hardenburgh), Hatchery Hollow Bridge-3025090 (Shandaken) and Crystal Springs Bridge-3346760 (Shandaken). Current capital project numbers include 649-652, 684-686.

For planning purposes, out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

For 2025 and beyond, there will be approximately four to five bridges replaced each year. The current list of bridges on our 2025-2029 Bridge Program:

- Cape Avenue (CB 140)(Wawarsing)-3347440, Marshall Bridge(CB 62) (Rochester)-3346790, Sully Bridge (CB 182) (Woodstock)-3347710, Banjo Bridge (CB 16) (Rochester)-3346470, Wager Bridge (CB 95) (Wawarsing)-3347050, Dougherty Brook (CB 112) (Shandaken)-3347170, Palentown Cemetery Bridge (CB 194) (Rochester)-3347830, Voss Bridge (CB 102) (Shandaken)-3347110, Hayden Bridge (CB 151) (Rochester)-3347520, Shultis Bridge (CB 120) (Shandaken)-3347250, Ulster Heights Bridge (CB 73) (Wawarsing)-3346870, Seals Bridge (CB 145) (Shawangunk)-3347480, Lawrence Bridge (CB 31) (Rochester)-3346580, Smith Bridge (CB 68) (Shawangunk)-3346830, Davenport Bridge (CB 167) (Rochester)-3347610, Mapledale Bridge (CB 176) (Hardenburgh)-3347660, Pantherkill Bridge (CB 99) (Shandaken)-3347080, Conyes Bridge (CB 77) (Saugerties)-3346910, Dean Bridge (CB 2) (Denning)-3346360, Webster Sheldon Bridge (CB 39) (Rochester)-3346650, Boodle Hole Bridge (CB 7) (Rochester)-3346410, Donahue Bridge (CB 160) (Shandaken)-3347580

# DPW - Bridge Substructure Repairs

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

## Description

Bridge substructures are a primary structural element for all bridges. Ulster County owns several bridges which have deteriorating substructures which support superstructures that are in fine condition. Once a bridge substructure fails, the entire bridge must be replaced. This project intends to make substructure repairs in order to extend the life of the bridges.

Project addresses will be established as specific projects are planned and created. Until such time, the address will be listed as the Department of Public Works. Additional sites may be added in 2024 and beyond.

Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Bridge Superstructure Repairs

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

315 Shamrock Lane

## Description

Bridge superstructures are a primary structural element for bridges. Some Ulster County owned superstructures exhibit heavy section loss in certain areas and/or bridge bearings. This project intends to make repairs to County bridge superstructures in order to extend the life of the bridge.

In 2024, the following superstructures are under design; Watson Hollow Bridge in the Town of Olive (BIN 3346370), High Falls Bridge in the Town of Denning (BIN 3025130), Coxing Bridge in the Town of Rosendale (BIN 3347040) Saugerties Reservoir Bridge in the Town of Saugerties (BIN 3347790) and Tuttle town Bridge in the Town of Gardiner (BIN 3346640). Previous repaired bridges under this capital are Sawkill Church Bridge (BIN 3347500) in the Town of Kingston, Powdermill Bridge (BIN 3347860) in the Town of Kingston, Fishcreek Bridge (BIN 3347750) in the Town of Saugerties, Saugerties Reservoir Bridge (BIN 3347790) in the Town of Saugerties and the Kingston Reservoir Bridge (BIN 3347820) in the Town of Woodstock.

Funding is allocated annually for additional bridges as needed. Project addresses will be established as specific projects are planned and created.

The Govin Bridge (BR 138), in the Town of Denning is planned for 2025.

Current capital project numbers include 661. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Fantinekill Bridge (BIN# 3347600)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	508
<b>Estimated Start Date</b>	08/1/2018
<b>Estimated Completion Date</b>	12/31/2024

## Project Location

2246 County Road 3

## Description

The Fantinekill Bridge carrying Samsonville Road (CR 3) over the Mombaccus Creek located in the Town of Rochester has reached the end of its service life. The existing bridge will be replaced with a new bridge, including new abutments. This project is listed on the current Transportation Improvement Program (TIP) under PIN 8761.75.

This project will replace the existing bridge. The existing bridge is constructed with A588 Weathering Steel (CorTen) and has continually deteriorated since its installation in the 1990s due to its proximity with the stream. The cost estimates are based on the Initial Project Proposal created for the project with NYSDOT and the current design contract.

Construction began in May 2024 and is expected to be complete in 2024 with final payments going into 2025.

# DPW - Galeville Bridge Replacement (BIN#3347430)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	628
<b>Estimated Start Date</b>	09/1/2022
<b>Estimated Completion Date</b>	12/31/2024

## Project Location

404 Galeville Road

## Description

The Galeville Bridge (BIN 3347430) is located in the Town of Shawangunk on the Wallkill River. It is a 300 foot two span steel truss constructed in the 1940s. The truss has over 40% section loss in areas and is nearing the end of its useful life. This project intends to hire a design consultant to survey and design a construction project for bridge replacement in 2024.

A design consultant was selected for the project in Spring 2022. Design was completed in 2023 and construction began in April 2024. Construction is anticipated to be completed in 2024 with payments into 2025.

# DPW - Highway Safety Program

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2028

## Project Location

## Description

This project will evaluate the opportunities for passing zones on County roads. Increased aggressive driving and lack of passing zones have caused an increase in vehicles illegally crossing the double yellow lines.

Appropriately designed passing zones will reduce the number of illegal movements, reducing the potential for crashes and improving highway safety.

This projects is designed to be a continuation of Capital Project No. 520 - Highway Safety, which was created in 2018. Capital Project No. 520 is currently established by the Legislature for \$650,000.00.

# DPW - Hurley Mountain Road Bridge Replacement (BIN# 3347260)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	679
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/1/2027

## Project Location

## Description

Ulster County DPW was awarded \$5 million in Bridge NY funding to rehabilitate this Bridge. There is a 5 % local match.

The Cantine Bridge (BIN 3347260) carries Hurley Mountain Road over the Esopus Creek in the Town of Marletown. The existing bridge is a 264 foot span (comprised of 2 equal 132 foot spans) steel plate girder structure built in 1958 on reinforced concrete abutments and pier. The existing steel girders, concrete deck, abutments and pier are all showing their age, nearing the end of their useful life. Given the size of the bridge, Ulster County would like to contract this project out to create a new bridge on the same or similar alignment. The replacement structure will meet current standards for resiliency and will have improved accommodations for non-motorized road use.

The project scope will begin with hiring a consultant utilizing the Local Design Services Agreement (LDSA) process for all design phases and right-of-way (ROW) processes. Although ROW may not be required for the new bridge, title searches and an official ROW boundary survey will be completed in the project vicinity in order to begin any necessary ROW incidental/acquisition work early on in the project life. The replacement structure will be a multi-girder 2-span bridge comprised of either steel (with metalized or galvanized coatings) or pre-stressed concrete beams and a poured reinforced concrete deck. The structure will have two 11 foot wide lanes with a minimum of 4 foot wide shoulders on both sides. The new structure will be built upstream (north) of the existing bridge and traffic will continue to use the existing bridge during construction. This will minimize impacts to the area, as a detour will not be required. After the new bridge and road approaches are complete, traffic will begin using the new bridge and demolition of the existing bridge will occur.

The Cantine Bridge currently has the lowest condition rating (3.33) of all 158 Ulster County DPW owned bridges. Additionally, with a span of 264 feet, it is the 5th longest span bridge owned by Ulster County.

Based on the scope, the Project is anticipated to be a Type 2 - Categorical Exclusion for environmental processes. Hydraulic studies will not be necessary as the proposed bridge will keep a similar low chord elevation which is over 8 feet above the 100 year flood elevation (FEMA Flood Elevation Profile at Bridge attached).

# DPW - Large Culvert Program

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

315 Shamrock Lane

## Description

Large culverts are structures having spans ranging from 5 to 20 feet. Ulster County has 152 large culverts in its inventory. This project seeks to repair deficient culverts utilizing in-house engineering and labor. The project also covers the costs for inspection of large culverts every 3 years.

The County DPW continually identifies culverts to be replaced with in-house labor and engineering. In 2024, culverts in Woodstock and Shawangunk are expected to be completed.

The Awosting Road culvert in the Town of Shawangunk was completed in 2024.

The current list of culverts to be designed will be determined after winter inspections.

Current capital project numbers include 640.

Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Mount Marion Traffic Signal

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	09/1/2023
<b>Estimated Completion Date</b>	12/30/2026

## Project Location

## Description

This project includes replacement of the signal at the intersection of Glasco Turnpike and Kings Highway in the Town of Saugerties.

Included in the replacement is new controller and signal heads. Replacement is necessary due to the age of the equipment and the need to meet new standards for signal heads that increase visibility and improve safety.

# DPW - Phoenicia Bridge Replacement (BIN#3347800)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	608
<b>Estimated Start Date</b>	04/1/2022
<b>Estimated Completion Date</b>	12/31/2027

## Project Location

17 Bridge Street

## Description

The Phoenicia Bridge (BIN 3347800) is located in the Town of Shandaken. The bridge was constructed in the 1970s and has undergone numerous repairs due to flood damage. The structure is a known hydraulic constriction, carries a water main to the Town of Phoenicia and is located near the U&D Railroad corridor. This project intends to hire a consultant to undergo a thorough evaluation of project alternatives including raising the bridge, lengthening the span and removing the bridge.

Ulster County DPW received funding towards design (up to \$150,000) from the Ashokan Watershed Stream Management Program. A design consultant has been selected for the project.

# DPW - Roadway Embankment Slope Stabilization (Beaverkill Road)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	699
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

2064 Beaverkill Road

## Description

Approximately 185 linear feet of the Beaverkill Road Embankment is in need of structural stabilization. UCDPW engineering staff evaluated the site in 2024 and determined that soiling nail would be the most efficient and cost-effective solution.

GSI, a soil nailing contractor, has a contract with Ulster County and provided a cost estimate for the site in 2024 for \$332K.

This capital adds about 20% for contingency and funds for paving/guide rail after the soil nailing is complete.

315 Shamrock Lane

## Description

As flood events continue, embankments along County Road in various mountainous valleys along the Esopus Creek and other waterways are becoming more prone to fail and require immediate attention and stabilization.

Project addresses will be established as specific projects are planned and created. Until such time, the address will be listed as the Department of Public Works. In 2025, a slope stabilization project on Oliverea Road in the Town of Shandaken will be established for material and utilize in-house labor for construction.

This capital would fund equipment, labor, and materials for the repair at various locations as needed using in house labor when possible.

Current capital project numbers include 676. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.

# DPW - Route 299 Shoulder Widening

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	488
<b>Estimated Start Date</b>	08/1/2018
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

290 New York Highway 299

## Description

This project is to install shoulders along Route 299 from Butterville Road to Route 44/55 in the Towns of New Paltz and Gardiner. It is currently listed on the Transportation Improvement Program (TIP) under PIN 8051.11.

The County procured and entered into a contract with a consultant engineer in 2018 to begin the project. The County is currently acquiring right of way acquisitions for this project and construction is anticipated for 2025 and to be completed in 2026.

# DPW - Samsonville Road Culvert Replacement

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	540
<b>Estimated Start Date</b>	05/1/2019
<b>Estimated Completion Date</b>	06/30/2026

## Project Location

2246 County Road 3

## Description

This project aims to replace the Samsonville Road Culvert situated near the intersection with Rochester Center Road in the Town of Rochester.

The construction timeline has been extended to 2025. This delay is necessary due to Ulster County's planned replacement of the Fantinekill Bridge in 2024. Both projects cannot be executed concurrently as the required detour routes would isolate residences situated between the two sites.

This project is funded through the Culvert NY program. The county has applied for additional funding from Culvert NY for 2024. Should this funding be secured, construction will proceed as scheduled. If the additional funds are not granted, alternative approaches, including the use of in-house labor, will be considered.

# DPW - Schultz Road Bridge Replacement (BIN# 3347470)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	06/1/2026
<b>Estimated Completion Date</b>	12/31/2028

## Project Location

Denning Road

## Description

The Schultz Bridge is a 3 span (spans of 32 ft, 78 ft and 32 ft) structure built in 1965 carrying Denning Road over the East Branch Neversink in the Town of Denning, Ulster County.

The bridge has a NYSDOT general recommendation rating of 3 and is a scour critical structure. The bridge is an important connection to the rural area north of the bridge which includes residences, a Frost Vally YMCA camp and NYSDEC State Trailhead Parking and access.

There is an 18.4 mile detour to access this area if the bridge were to be closed. However, this route is on local town roads, over mountainous terrain with many non-standard road standards which trucks may not be able to navigate.

This is a complete replacement project with a engineering consultant brought on board for preliminary/final design and construction inspection. The Department of Public Works applied for BridgeNY funding to offset the costs of this project.

# DPW - Scudder Brook Bridge (BIN# 3347570)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	680
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

Beaverkill Road

## Description

The Scudder Brook Bridge (BIN 3347570) carries Hurley Mountain Road over the Esopus Creek in the Town of Hardenburgh in the Town of Marletown. The existing bridge is a 264 foot span (comprised of 2 equal 132 foot spans) steel plate girder structure built in 1958 on reinforced concrete abutments and pier. The existing steel girders, concrete deck, abutments and pier are all showing their age, nearing the end of their useful life.

The existing bridge is in need of full replacement due to extensive deterioration of the weathering steel girders and asphalt pan superstructure and the concrete substructures. The project involves construction of an onsite detour and a temporary bridge to be used to support traffic during construction of the new bridge.

Based on replacement considerations and site needs, it is anticipated that the project will be classified as Type II under SEQRA Construction in 2026.

# DPW - Turnwood Bridge Replacement (BIN# 3347160)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	633
<b>Estimated Start Date</b>	09/1/2022
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

## Description

The Turnwood Bridge is an 83 foot span thru girder fracture critical structure with a high hydraulic vulnerability classification for catastrophic failure. The bridge received yellow and red flags in 2020. The original bridge was constructed in 1939 and underwent a rehabilitation project in 1992 for deck and steel repairs. The structure serves a rural community which relies on the bridge to avoid a 20 mile detour that utilizes a seasonal unpaved road. There is no other detour route. The community also depends on the Town of Hardenburgh Highway Garage for providing essential services, which is located 2 miles beyond the bridge, again, where only a seasonal detour route is available. The current bridge has been in service well beyond its useful life and a replacement is needed.

A design consultant was procured and hired in 2022. The project will include construction of a new bridge capable of passing the 100 year category severity storm on the same alignment as the current bridge. Prior to demolition of the existing structure, a one lane temporary bridge will be installed upstream to serve alternating one-way traffic maintained through temporary traffic lights. No right of way is expected for the temporary and new bridges. A small amount of right of way funds are allocated within the project budget as a precautionary measure. Design and ROW phase in 2024 and 2025. Anticipate construction in 2026.

# DPW - Ulster Landing Road Improvements

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

Ulster Landing Road

## Description

Ulster Landing Road in the Town of Ulster exhibits signs of settlement which has led to instability and movement of asphalt, guardrails, trees, and overhead utility posts.

The scope of the engineering work consists a landscape of approximately 200 linear feet along Ulster Landing Road, and approximately 50 feet down the embankment.

# DPW - Wolven Bridge Replacement (BIN# 3346510)

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	505
<b>Estimated Start Date</b>	08/1/2018
<b>Estimated Completion Date</b>	12/31/2025

## Project Location

## Description

The Wolven Bridge carrying Zena Road (CR 30) over the Sawkill Creek located in the Town of Woodstock has reached the end of its service life. The existing bridge will be replaced with a new bridge, including new abutments. This project is listed on the current Transportation Improvement Program (TIP) under PIN 8761.76.

The existing bridge is constructed with A588 Weathering Steel (CorTen) and has continually deteriorated since its installation in the 1990s due to its proximity with the stream. The cost estimates are based on the Initial Project Proposal created for the project with NYSDOT. Right of way acquisitions are currently complete. Construction began June 2024, with an anticipated 2024 completion. Payments and reimbursements expected to continue into 2025.

# DPW - Zandhoek Road Safety Improvement

## Overview

<b>Request Owner</b>	Robert Parete, Deputy Commissioner DPW
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/1/2026

## Project Location

Zandhoek Road

## Description

The Department of Public Works is seeking to improve drainage features on a 0.4 mile stretch of Zandhoek Road in the Town of Hurley.

The goal, to convert existing ditch/swales into a closed drainage system, which will allow the County to widen road shoulders.

NYS DOT standards for a road of this type would require 4-ft minimum shoulder width. Design costs are currently being paid for out of Capital Project No. 520.

# Planning - Golden Hill Transportation Improvement

## Overview

<b>Request Owner</b>	Dennis Doyle, Director of Planning
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	677
<b>Estimated Start Date</b>	06/1/2023
<b>Estimated Completion Date</b>	06/30/2026

## Project Location

61 Golden Hill Drive

## Description

This project includes the installation of a signal at the intersection of Rt. 32 and Golden Hill Drive and the installation of a traffic control gate at the intersection of Glen Street and Golden Hill Drive.

The project addresses safety and neighborhood concerns about the existing uses on Golden Hill. The signal is also in response to the the construction of an affordable housing project.

Partial funding for the signal will be born by the affordable housing project.

## Images

## Details

**New Capital Project?:** No

**Type of Project:** Other improvement

**Routine?:** No

**Will This Capital Have Any Future Operating Impacts?:** Future operating impacts will include the maintenance of the systems installed for the gate only - the City of Kingston will assume general maintenance of the signal.

# UCAT - Bus Shelters

## Overview

<b>Request Owner</b>	Toni Roser, Director UCAT
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2026

## Project Location

1 Danny Circle

## Description

UCAT provides public transit and paratransit services throughout the 24 cities, towns, and villages that make up Ulster County. Currently, operating 26 fixed routes serving high-density urban areas, there is currently no infrastructure provided for riders as they wait for the bus to arrive, nor are there consistent identifiers where the "bus stops" i.e. sign post along traveled routes. The Bus Shelter Capital project will work with an architectural firm to create an universal bus shelter that can be installed and maintained at the expense of the local municipality.

In order to help ensure the safety of the residents and visitors of Ulster County in efforts to promote the use of public transportation, UCAT will utilize federal and state funds to develop architectural design options that will include solar power, LED display boards, and GPS/AVL solutions. UCAT will utilize FTA and NYSDOT funds to cover 90% of the cost with a local 10% match.

## Images

## Details

**New Capital Project?:** No

**Type of Project:** New Construction

**Routine?:** No

**Will This Capital Have Any Future Operating Impacts?:** Future operating impacts will depend on the maintenance agreements of the shelters.

## Description

UCAT has a corresponding recurring Capital Project Fleet Electrification Program that focuses on the successful procurement of 100% electric, zero-carbon vehicles. As UCAT continues to transition away from fossil fuels to renewable fueling options, i.e. electrification, UCAT's current facility must be simultaneously scaled to support the changing needs of the new 100% electric zero-carbon emissions vehicles.

The foundation of the project was funded initially in 2020 through the New York State Volkswagen Funding program and administered through the New York Power Authority (NYPA). The scope of work for this initial phase of design and installation for the UCAT storage garage was completed in 2021 with the two dual level II charging stations scheduled to be completed by the end of 2022. The following Capital Project will focus on installing additional ABB ceiling mounted chargers needed for additional BEB 35' transit, and the additional three (3) dual level II chargers. The project will also encompass the installation of a backup generator to support the system.

In addition, in conjunction with the Electrification Transit Study, UCAT will be installing electric charging in targeted locations throughout the county to support its fleet's operations. UCAT will utilize federal and state funds to complete the ongoing expansion of the onsite electric grid to support the EV charging solutions.

# UCAT - Electrification Multimodal Centers

## Overview

<b>Request Owner</b>	Toni Roser, Director UCAT
<b>Department</b>	Transportation
<b>Type</b>	Capital Improvement
<b>Project Number</b>	TBD
<b>Estimated Start Date</b>	01/1/2025
<b>Estimated Completion Date</b>	12/31/2029

## Project Location

1 Danny Circle

## Description

This project is for the expansion of UCAT’s current facility infrastructure at 1 new location to support electric fleet charging for rural bus routes.

UCAT currently has a total of 44 vehicles (40 revenue, and 4 support vehicles) in the fleet that are centrally dispatched/stored from a nearly 20-year-old facility. At the current time, the facility does not have the ability to accommodate the expected operational growth that will result from reoccurring Capital Project Fleet Electrification Program projects that will integrate electric vehicles into our fleet over the course of the next 12 years in alignment with the Electric Fleet Policies.

In lieu of the challenges of developing an expansive grid of on-route charging solutions to power the new all-electric fleet, this project will construct a strategically placed multimodal center within the County that will support EV charging, and adequate indoor fleet storage. The project will be inclusive of architectural design and planning for 2024-2026, and construction for fiscal years 2027-2028.

Project addresses will be established as specific projects are planned and created. Until such time, the address will be listed as UCAT's current facility.

# UCAT - Fleet Electrification Program

## Overview

<b>Request Owner</b>	Toni Roser, Director UCAT
<b>Department</b>	Transportation
<b>Type</b>	Capital Equipment
<b>Project Number</b>	Recurring
<b>Estimated Start Date</b>	01/1/2024
<b>Estimated Completion Date</b>	12/31/2030

## Project Location

1 Danny Circle

## Description

This capital project addresses fleet and infrastructure electrification integration with a long-term goal of having 100% of all fleet vehicles electric/zero carbon by 2035. The UCAT Fleet Electrification Program (previously named UCAT Bus Replacement) is an annual recurring capital project that incorporates 100% electric, zero-carbon vehicles into daily operations.

UCAT currently has 40 Fleet vehicles and 4 admin support vehicles for a fleet total of 44 units. UCAT acquired three (3) new 35' BEB transits in December of 2021 (ordered in FY 2020- Capital Projects 513/529) replacing three (3) diesel transits that reached the end of their useful life, resulting in 7% of UCAT's fleet meeting the County's goal of 100% electric/zero carbon fleet. UCAT will continue to replace 3-5 buses on an annual basis to reach its goal of 100% electric by 2035.

Current capital project numbers include 687, 689. Out-year expenses are budgeted to increase at the current inflation rate of 3.5%.
