Establishing Capital Project No. 375 For The Purchase Of 64 Computerized Salt Spreaders For Snow Plows – Amending The 2012-2017 Capital Program And The 2012 Capital Project Fund – Public Works (Highways and Bridges)

Referred to: The Public Works and Capital Projects Committee (Chairman Fabiano and Legislators Maloney, Roberts, Briggs and John Parete) and The Ways and Means Committee (Chairman Gerentine and Legislators Harris, Maio, Maloney, Gregorius, Provenzano and Rodriguez)

Chairman of the Public Works and Capital Projects Committee Dean J. Fabiano and Deputy Chairman John Parete offer the following:

WHEREAS, this resolution has been submitted by the County Executive on behalf of the Department of Public Works; and

WHEREAS, the Commissioner of Public Works is endeavoring to greatly reduce the use of sand from the Department of Public Works winter salt-sand spreading and improve the efficiency of salt spreading operations; and

WHEREAS, the elimination of sand from the salt-sand mixture presently used by the County snow plows will save the County approximately $623,000.00 per year; and

WHEREAS, the sand spread on the roads and bridges during the winter snow plowing operations collects on the bridges and in the drainage structures, which causes water to pool on the roadway surfaces and clogs the drainage structures to the detriment of the environment and the County infrastructure; and

WHEREAS, the elimination of sand from the salt-sand mixture will drastically reduce the amount of man-hours required to clean the roads, bridges and drainage ditches of the sand each spring; and

WHEREAS, the current sand/salt spreaders waste material because they can not adjust the rate of the distribution of material depending on the road and weather conditions, which is economically inefficient; and

WHEREAS, the change to a pure salt spread necessitates the need for an efficient and conservative delivery system as less material is required to be spread on roadways in order to clear them of ice and snow; and
