All businesses, associations and organizations in Ulster County purchasing the Cardiac Science model for public use will be required, prior to purchase, to have in place a Public Access Defibrillator program as per New York State Department of Health (NYSDOH) Policy Statement No. 07-04.

Private citizens purchasing the Phillips OTC model for their homes will be required to sign and have notarized prior to purchase an Indemnification Agreement which will be supplied by the vendor.

If you purchase an automated external defibrillator(s) for your business or your home, you may be entitled to the automated external defibrillator credit. However, the credit is not allowed for automated defibrillators purchased for resale. Information about the AED tax credit can be found at <http://nysaed.com/Default.asp>.

\*Anyone wishing to order and AED needs to let the following vendor that you are an Ulster County resident/business in order to receive the discounted rate.
