

The value of vaccine. The security of protection.

August is National Immunization Awareness Month.

The goal of National Immunization Awareness Month is to increase awareness about immunizations across the life span, from infants to the elderly.

August is the perfect time to remind family, friends, co-workers, and those in the community to catch up on their vaccinations. Parents are enrolling their children in school, students are entering college, and healthcare workers are preparing for the upcoming flu season.
