## **II. CORRECTIONS**

### **A. THE DETENTION FACILITY (UCLEC)**

The Ulster County Law Enforcement Center (UCLEC) is located at 380 Boulevard, Kingston, NY 12401. The facility houses the Ulster County Sheriff's Office Patrol Division, Corrections Division and the Civil Division. It is 277,000 square feet, which includes inmate housing, a medical department, and classes for G.E.D. through the Kingston School District, among other services. The UCLEC had an original rated capacity of 426 inmates; however, double bunking was instituted in several areas during 2015 increasing the MFC (Maximum Facility Count) to 458 as stated by the New York State Department of Corrections.

The Corrections Division is supervised by a mandated security staff of 158. The Ulster County Law Enforcement Center continually conforms to the Rules & Regulations set forth by the New York State Corrections Law and the New York State Commission of Corrections.

Committed to the jail are prisoners that may be charged with any type of crime or violation, including homicide, sex crimes, DWI, trespassing, etc. In order to provide a safe and secure correctional institution for these inmates, the Sheriff's Office employs both full and part-time correction personnel. These positions consist of 130 Correction Officers, 11 Corporals, 8 Sergeants, 6 Lieutenants, 1 Assistant Warden, 1 Warden and a Superintendent

## **B. DAILY POPULATION**

The 2017 high monthly inmate average of 328 occurred in August 6<sup>th</sup> and the lowest monthly inmate average of 249 occurred in November 22<sup>nd</sup>. The overall daily population averaged 285 in 2017; this represents a significant decrease from 2015 due to Dutchess County's Jail opening up 200 temporary beds on their site in the spring of 2015. Once again the female population remained high, averaging 38 women per day.

## **C. REVENUES**

In October of 2007 the New York State Commission of Corrections allowed the Corrections Division to board in inmates from other jurisdictions. As a result of these agreements, in 2017 Ulster County received a total of 240 inmates for 3,380 days, amounting to a total of \$287,300 in revenue. Reimbursement from DOCCS and the U.S. Marshal's Office for travel totaled \$12,776.

The Ulster County Sheriff's Office and Social Security Administration have worked together since 1999 on an Incentive Payment Agreement. This agreement exists with the Ulster County Jail providing inmate information to Social Security whereas Social Security then, if applicable, suspends benefit payments to the person(s) incarcerated. The amount of payment is determined by Social Security receiving the report within 30 days after the date of confinement. In this case \$400.00 would be applied per inmate. If the report is received after 30 days, but within 90 days of confinement, \$200.00 would be received. The UC Treasurer's General Fund received \$23,000 from the Social Security Incentive Program for FY'17.

SCAAP is a Federal program that gives partial reimbursement for the cost of incarcerating undocumented criminal aliens, netting Ulster County an estimated \$25,000 for the FY '17.

Revenue for the Ulster County Corrections Division amounted to **\$348,076** in 2017.

## **D. BAILS AND FINES**

Total monies received by the facility via bails and fines in 2017 were \$941,642. The facility also allows individuals to post bail using credit cards. In 2017 a total of \$427,891 was posted by credit card. The individuals that were incarcerated continue to represent a population with major substance abuse, communicable diseases and violent criminal histories. This type of population spends more sentenced time in jail and requires more direct supervision by officers. Many of the inmates represented by this type of population are recidivists – repeat offenders.

## **E. OVERTIME / PART TIME**

Overtime and part time compensation for staff are essential in providing manpower for post coverage, staff vacancies, training, one-on-one supervisions, and transportation of sentenced and awaiting-sentence population. In 2017, money spent on overtime was \$1,391,491 and \$175,794 on part time for a combined total of \$1,567,285.

337 inmates were placed on one-on-one supervision which requires an officer assigned to the post 24 hours a day, (three 8-hour shifts, 24 hours). The inmates were supervised for 365 days with multiple posts on many of the days. The constant supervision post is above and beyond the minimum staffing requirement for the UCLEC. As a result, all of the coverage is accomplished with overtime and part time staffing.

**F. ACCREDITATION: MEDICAL**

Correction staff continues to work closely with Correctional Medical Care (CMC) to maintain accreditation. For the last fifteen years, the medical dept. has maintained the Standards of the National Commission on Correctional Health Care (NCCHC).

**G. N.Y.S. COMMISSION OF CORRECTIONS / NYS SHERIFFS' ASSOCIATION ACCREDITATION PROGRAM**

Representatives from the New York State Commission of Corrections visited the facility on several occasions in 2017. During these visits they reviewed the following standards: admissions, security and supervision, prisoner hygiene, discipline, visitation, exercise, classification, food service, sanitation, personnel standards and the grievance program. The UCLEC facility continues to meet all of the requirements to maintain the accreditation by the New York State Sheriff's Association.

**III. INMATE RECORDS**

**A. RECEPTION, INTAKE & CLASSIFICATION**

The Ulster County Jail's Intake / Classification Unit processed 2,095 initial classification screenings for FY'17. Classification is based on age, prior criminal history, any gang affiliation, propensity for victimization, history of medical / mental illness, history of sex offenses, history of hostile relationships with other inmates, prior attempts at self-injury or suicide, prior escapes or attempted escapes, attitude and behavior during present and prior incarcerations including any history of menacing behavior, victimization during incarceration, and any other information which may affect the safety and welfare of staff or other inmates.

1,186 re-classifications were also processed in 2017. Reclassification occurs if an inmate causes a disturbance, violates a rule or law, or is found guilty in the disciplinary process. It can also change when an inmate exhibits good behavior and follows the rules and regulations of the facility.

The *Local Conditional Release Program* is handled by New York State Parole. Eligibility requirements for inmates include a definite sentence from a local court, with a minimum of 90 days left to serve. Eligible inmates can submit an application to New York State Parole, after serving a minimum of 30 days, and must serve 60 days before release to this program. \*There were no applications submitted for consideration in 2016.

**B. VICTIM NOTIFICATION (VINE)**

The National Victim Notification Network, VINE (Victim Information and Notification Everyday) allows crime victims across the country to obtain timely and reliable information about criminal cases and the custody status of offenders 24 hours a day. Victims and other concerned citizens can also register to be notified by phone, email, or TTY device. Registered users are notified immediately if an offender's status changes, such as release, transfer or escape. When a notification is triggered, VINE automatically continually calls the number(s) or sends an e-mail that the victim has provided.

The Ulster County Sheriff's Office has continued to participate in the statewide victim notification program with Correction Officer Warren Whitaker as coordinator. For the FY'17, the Ulster County Jail received 1,784,751 calls and made 81,892 notifications to victims. Additionally, 2,910 new victims requested notification. The general public can gain access by calling 1-888-846-3469 or logging on to [www.vinelink.com](http://www.vinelink.com), which 1,932,140 victims used. An additional 11,475 victims were notified by e-mail. This year VINE mobile received 386,524 notifications and Mobile Patrol received 1,784,751 notifications.

**C. COMPUTERIZATION UPDATE**

The Corrections Division has been working with New World Systems (NWS) since July, 2004. NWS provides tailored reports for the Commission of Correction and in-house statistics such as electronic log books, live scans, and digital mug shots. Additionally, it will enable other police agencies to interface with our inmates and arrest records. In 2012 New World Systems, the records management system for the jail, instituted the electronic visiting module. There are 25 officers trained and assigned in working with this program. This enables visiting reports to be printed on all inmates and their visitors. Also, as requested by Albany Veterans Administration, a report was created in order to track inmates whom have served in the U.S. Military and may be able to receive additional benefits. We also currently have 58 officers trained in the booking aspect of New World and another 158 whom are able to keep electronic activity logs and look up basic inmate information. We continue to upgrade the system in order to move towards a full electronic system.

The Ulster County Sheriff's Office, Corrections Division subscribes to the E-Justice Portal Access. 60 active agency members have access to the E-Justice Portal. Uses include: Daily Jail Reporting (DPRF), Wanted Persons Inquiries, Criminal History Information, NYS Sheriff's report, State Ready & Parole Ready reporting to NYS DOCCS and the reportable incident reporting system.

17 PC's were upgraded in our housing units to the new operating system in 2016. The Correction Division began using body cameras this year, 21 cameras were assigned to supervisory staff and 13 additional cameras are ready to be deployed to correctional staff.

**D. PRISON RAPE ELIMINATION ACT**

The Prison Rape Elimination Act (PREA), a federal law enacted in 2003, was created to eliminate sexual abuse and sexual harassment in confinement. In addition to providing federal funding for research, programs, training, and technical assistance to address the issue, the legislation mandated the development of national standards. The National Prison Rape Elimination Commission developed recommended national standards for reducing prison rape. The final standards became effective June 20, 2012, when they were published by the Department of Justice (DOJ) in the Federal Register. More recently, the US Department of Homeland Security (DHS) released final standards for DHS confinement facilities, effective May 6, 2015.

**E. AFFORDABLE CARE ACT**

The Affordable Care Act, also known as the Patient Protection and Affordable Care Act (PPACA), and informally as "Obamacare", was signed into law by President Barack Obama on 23rd March, 2010. This health care law aims to improve the health care system of the United States by widening health coverage to more Americans, as well as protecting existing health insurance policy holders.

Beginning January 1, 2014, correctional facilities were to begin enrolling eligible inmates into Medicaid through qualified navigators. In 2017 the Corrections Division was able to enroll 46 inmates into the system, saving the County of Ulster substantial amount of money in inmate medical care.

### D. GANG INTELLIGENCE UNIT

In an effort to combat the growing gang presence, the Gang Intelligence Unit gathers and validates information regarding individuals identified as members of Security Risk Groups (SRG). The Ulster

County Sheriff's Office Gang Intelligence Unit works closely with the Ulster Regional Gang Enforcement Narcotics Team (URGENT).

Upon admission, with the assistance of URGENT, inmates are assessed based on self-admission, tattoos, clothing colors, beads, and hand signs. With the gathered information, the Gang Intelligence Unit can evaluate and analyze ways that provide decisions regarding housing and transporting inmates. The individuals' propensity for engaging in Security Risk Group related activity is evaluated. This information allows the facility to better plan searches, to appropriately adjust inmate housing, work assignments and visits to avoid potentially violent situations.

As seen in the numbers below, a total of 160 gang members entered the Ulster County Jail in FY'17. All of these gang members have been positively identified by Members of the Gang Intelligence Unit and have had all of their personal information and gang affiliations documented and stored for further reference.

**E. SHERIFF'S EMERGENCY RESPONSE TEAM**

The Ulster County Sheriff's Emergency Response Team (S.E.R.T.) is under the direction of Major Jon Becker, C.O. Michael Harris and C.O. Anthony Maggio. S.E.R.T. was established in 1990. The original team started with 8 officers, and grew to 23 specialized trained staff. The team participates in numerous high risk, high security transports and trials. One of their main functions is to conduct facility shakedowns on a regular basis. S.E.R.T. members are assigned to handle facility problems, escort inmates to and from housing units and are prepared at a moment's notice to quell problems before they escalate. They completed over 1,000 hours of training. This training consisted of physical training in the weight room, chemical agents, cell extraction, cell searches, jail shake-downs, Article 35/Use of Force, hostage survival, and firefighting and firearms certification. The Corrections Division and the Patrol Division continue to be joined together forming a larger and stronger S.E.R.T. team.

*Sher s Emergency Response Team*

**F. K-9 UNIT**

Officer Maggio and **K-9 Maverick** have proved to be a driving force within the jail to eradicate the use and possession of contraband entering the Jail. K-9 Maverick stays proactive conducting searches throughout the Jail on a daily basis. In 2017 Officer Maggio and K-9 Maverick conducted searches of over 30 housing units, 1,032 visitors and 1,030 civilian lockers resulting in several finds. Additionally there were three (3) employee locker room searches as well as three (3) jail road checks conducted at the Facility entrance.

G. NIMS (NATIONAL INCIDENT MANAGEMENT SYSTEM)

Under Homeland Security Presidential Directive-4 (HSPD), Lt Joseph Decker and Correction Officer George Hill continued to assist disciplines in Ulster County as Incident Command Instructors to become compliant with the Homeland Security Presidential Directive-4.

During the Year of 2017 we continued to assist disciplines with the adoption of NIMS and implementation of continuing education for municipalities. In 2017 several disciplines received ICS Training including: T/Wawarsing; T/Saugerties PD; Tenbroek Commons; DEP Police Academy and Ulster County Community College Police Basic Academy.

During 2017 several disciplines requested Lt Joseph Decker and Co Hill to speak on the subject of Incident Management and Response to Active Shooter in a School environment. Also during 2017 NYS Fire Academy requested a presentation in regards to protocols and planning for a Line of Duty Death in a Fire/ Police or EMS disciplines.

In conclusion continuing education and planning will continue for Ulster County to assist the community agencies in prevention, protection against, and the response to, and recovering from the effects of incidents, regardless, of cause, size, location, or complexity.

## **H. TRANSPORTATION STATISTICS**

Transport activity remained steady in all categories. Transporting officers must be thoroughly trained and provided with the equipment necessary to accomplish their task with efficiency and safety. The transportation unit moves inmates safely to and from court houses throughout Ulster county, medical appointments, wanted persons from other counties and delivery to other facilities, such as the new York State Department of Corrections.

Officers selected for this unit must exhibit the highest degree of mental, emotional and physical capabilities to successfully transport inmates. When transporting inmates for court appearances, the transporting officer must be alert to all conditions and potential hazards which surround the movement of the inmates to and from court. Specialized equipment, vehicles and S.E.R.T. may be utilized for high-profile inmates, high risk inmates or transports for inmates with special medical and mental needs.

#### I. Fire Safety

Due to the size and complexity of the Ulster County Law Enforcement Center and the Commission of Corrections Minimum Standard 7039, staff and resources are required to perform several mandated fire, safety and security inspections. The Sheriff's Office has one full time staff member appointed to the Fire Safety Officer position or FSO, Officer George R. Hill, and six additional staff members (Lt. Joseph Decker, Officers Manolis Skartados, David Odell, Paul Juliano, Adam Hendricks and Ryan Petit) all trained by the standards put forward by the Commission of Corrections (COC) and the NYS Office of Fire Prevention and Control (NYSOFPC). The additional staff has been identified to assist in a relief capacity for the full time FSO.

The Fire and Safety Officers (FSO) core job performance duties include weekly, monthly, quarterly, semi and annual inspections of all the facility and fleet fire protection, detection and control equipment such as fire extinguishers, automatic sprinkler systems, alarm systems and any equipment related to health safety, OSHA or PESH mandates. The FSO is responsible for fire safety and health training to the sheriff's office, and under direction of the sheriff, other county departments and local municipalities. Additional responsibilities include accompanying US Department of Labor, OSHA, PESH, COC or any other regulatory agency that relates to the fire and health safety or any other inspections of the facility.

The FSO is responsible for the coordination of any type of drills or exercises mandated by the regulatory agencies that fall within the parameters of the Sheriff's Office, such as annual disaster drills, and quarterly housing unit fire drills.

The FSO coordinates with all responding agencies and acts as the department liaison during any emergency involving fire suppression. Additionally the FSO facilitates facility formularization training to the local fire department and conduct walk through training.

## V. SUPPORT SERVICES AND PROGRAMS

### A. FOOD SERVICES

Food service for the Ulster County Jail is provided by ARAMARK Correctional Services. The Food Services Unit provides three nutritional meals each day for the inmate population. The kitchen is open seven days a week to meet the needs of staff and the inmate population. The Ulster County Jail maintains a full time county cook, while ARAMARK employs a Food Service Manager and four cooks. The facility cooks prepared and served 316,633 meals to inmates and Corrections staff in 2017.

**Facility Kitchen** - Always looking to be more efficient and cut cost, the facility tested a waste dehydrator for three weeks this December. The Ecovim Eco-250 is a unique waste management system that can process waste for medium size foodservice operations up to large institutions or facilities. The Ecovim system dehydrates compostable waste using energy efficient and automated control process. The Eco-250 is easy to maintain, requires no fresh water connection or venting. Agitators will stir the waste heated by the units decomposing chamber to kill any bacteria and reduce the waste matter up to 93%, producing a dry, light and odor free material that may be used as soil amendment.

### B. COMMISSARY

ARAMARK is responsible for all purchases by inmates through commissary. Profits generated from the sale of commissary goods offset the cost of the games, recreation equipment, television sets, and cablevision. There is no financial impact on Ulster County taxpayers for any of the above items purchased for inmate use in accordance with the New York State Minimum Standards. The FY'17 gross proceeds from inmate commissary were \$100,201, an increase of 9.6 % from last year.

### C. INMATE TELEPHONES/TABLETS

On August 19, 2010, the facility changed vendors and now uses I.C. Solutions as the inmate telephone system provider. The new system offers the population access to call cell phones; there are also several different ways for the inmates to make just collect calls. There are debit and prepaid accounts. Total revenue for telephone service in 2017 was \$215,660.

In March of 2017, the Correction Division purchased 160 Samsung tablets for inmate use through the Illinois-based firm Edovo (short for Education Over Obstacles), which developed a wireless, tablet-based education platform for incarcerated inmates that is designed to help reduce recidivism by providing inmates with the chance to get an education.

On any given day, a portion of the inmates at the Ulster County Jail can be found locked in their cells, a tablet computer in hand, studying topics such as "introduction to plumbing," learning about substance abuse treatment options, or improving their reading comprehension by reading about Revolutionary War battles, wildlife, or American colonies.

There are 20 tablets assigned to each housing pod, which holds around 48 inmates. Inmates can sign a tablet out during times when prisoners are allowed to be out of their cells and in the common areas of the housing unit. Inmates "earn points" by completing sections in the educational component that allows them to use the tablet to stream music, movies, or books, all from pre-approved lists and to make phone calls. They are not allowed to send text messages or emails from the tablets.

Funding for the tablets as well as establishing the secure and restricted internet access for their operation was \$100,000. Revenues generated through the current inmate phone system paid for the tablets. All of which means no taxpayer money was spent on the equipment.

**D. MENTAL HEALTH SERVICES**

Correctional Medical Care Inc. (C.M.C.) contractually provides forensic services to the Ulster County Jail. Under the contract with C.M.C., the psychiatrist provides 16 hours of service per week. For the year of 2017, 1,367 inmates were seen by the psychiatrist. In addition, the psychiatrist is part of a group of doctors on call 24 hours a day. This is an invaluable tool to the correction facility as inmates can be in crisis at any time. C.M.C. also provides a forensic manager 40 hours per week. We continue to maintain constant supervisions which are monitored closely, tying up valuable staff hours as well as housing space.

Due to the facility layout and procedure changes, the Certified Social Worker (C.S.W.) was able to see 826 inmates. Inmates seen by the Discharge Planner numbered 1,513.

**E. MEDICAL SERVICES**

2017 was the fifteenth full year of medical services provided by Correctional Medical Care Inc (CMC). The medical staff completed 1,938 new inmate screenings in addition to 3,469 inmate sick call visits. An additional 2,018 inmate visits were made to the physician and dentist. C.M.C. remains an accredited agency with the National Commission on Correctional Health Care (NCCHC) and the New York State Sheriff's Association (NYSSA).

**F. INMATE EXERCISE**

Inmates are entitled to exercise periods which, at the discretion of the chief administrative officer, shall consist of at least 1 1/2 hours during each of five days per week or at least one hour seven days a week.

*Correction Officer Scott Burke*

*Intake Area*

## **G. INMATE VISITATION**

Since Jan.1, approximately 8,397 civilians visited 5,913 inmates in separate visiting blocks. Staff members have worked closely with supervisors, S.E.R.T. and the K-9 Unit in locating contraband. They have also utilized effective communication skills, passing on valuable information gathered while speaking with inmates during visitation.

A total of 11 arrests were made in the visiting area this year. These arrests were contraband related. Tickets were issued as a result of road blocks and license checks using Mobile Cop.

Visitation security was enhanced by the combined efforts of the Criminal and Correction Divisions. The department K-9 acts as an additional measure for preventing contraband from entering the facility by outside sources.

## **H. INMATE WORK DETAIL**

Each year, the work detail has worked setting up the Ulster County Fairgrounds and Seamon's Park in which the inmates plant for the Mum Festival. In addition, they set-up for the Garlic Festival held in Saugerties each year. They sheet-rock, hang insulation, paint, plant, and built new structures. 481 inmates participated in the work detail crew, working 4,616 hours for Ulster County.

This detail helps inmates after release with the labor skills they have learned and applied. It also prepares them to be employable members of society and give back. In 2017, the detail worked at various locations, including the fire departments of West Hurley, Whittenberg and St. Remy. Other work details included various churches, town halls, police departments and other non-profit organizations throughout the community.

## **I. EDUCATIONAL SERVICES**

Eligible youth are entitled to receive educational services and are encouraged to become involved in the programs offered by the Kingston City School District as they may obtain skills and credentials necessary to function more productively both during incarceration and after release. All youth ages 16 through 21 admitted to U.C.L.E.C. are interviewed during an intake screening as to the last level of schooling they have completed. The Kingston School District distributes a handbook on the services provided. Youths are mandated to attend school as soon as they are incarcerated.

Due to a change in the teaching structure, the Kingston City School District now has 3 full-time teachers with one teaching assistant and one counselor. The teaching staff offers various studies, including adult and teen Test Assessing Secondary Completion (TASC) preparation studies, remedial studies, life skills, review and actions for personal choice (APC). Currently, the teachers use contact area teaching. This is a more hands-on approach. Math, Social Studies, Science, Language Arts and Writing have been more specifically addressed. This has proven to benefit the students, as it offers a much more structured environment and gives teachers the ability to target each individual student's needs. The educational services also provide employment preparation education.

**TASC statistics for 2016:** (Class time is based on 5.5 hours per day, 212 days per year).

59	Enrolled in class
9	Adults Passed
0	Youths Passed

## **J. REHABILITATION**

With the reorganization of inmate programs and resources available to the inmate population, we are now able to provide a sufficient number of programs to meet the needs of the growing inmate population.

**Volunteer Registry-** The volunteer registry program continues to be a very successful program in the identification of volunteers visiting the facility. Applications are kept on file and reviewed yearly for all volunteers.

**Law Library-** The Law library is updated on a regular basis. On a routine schedule, outdated law materials are replaced with the appropriate updates as per the N.Y.S. Minimum Standards. The mobile computer kiosks allow for more time per housing unit for law studies.

**Programs -** Long standing programs continued their services this year. Alcoholics Anonymous, Narcotic Anonymous, and religious services of several different faiths were routinely attended by both male and female inmates. The female population is offered several programs, including Ulster Literacy, which teaches the fundamentals of reading and writing, and a parenting class given by the YWCA. The Maple Ridge and Woodcrest communities continue to provide programs involving crafts and seasonal events.

Continual training consists of: an ongoing in-house service training program and search for outside applicable training courses or seminars. To satisfy the requirements of the NYS Sheriff's Association all staff members are required to receive 21 hours of in-service training. In addition, all supervisors are required to receive an additional 21 hours of managerial training annually. I.C.S. 64 was accomplished among the supervisory levels throughout the department. Overall, in 2016, the Training Unit provided 18,879 hours of training to 3,683 members of the Correction Division and other county employees. The Basic Academy for newly hired correction officers comprises 160 hours within one year from the date of hire for peace officer training. We have sponsored several Correction Officer Basic Academy courses. Instructors have also assisted other agencies in the field of legal services, defensive tactics, gang intelligence, report writing, and firearms. We also participate in career days and K-9 presentations in local schools and other organizations.

## Civil Division

The Sheriff serves as the enforcement officer of the courts and legal community regarding civil matters. The Civil Division serves and executes the various legal processes issued by the non-criminal courts of the state and its subdivisions, as well as the legal community and the public.

The purpose of civil process is to give a defendant notice that a legal action or a proceeding is going to commence. Sheriff's deputies are asked to serve process because of their traditionally good record keeping practices and professional service.

Specific civil processes include income executions, property executions, evictions, orders of attachment (seizures of property which may be used to satisfy a judgment), orders of seizure (seizures of items of personal property whose ownership and possession is disputed), and civil arrests. In each case, papers must be served upon the defendant.

The Civil Division also carries out pistol permits licensing, background checks, accident reports and accounting for jail bail and fine monies and the jail commissary. Because of its role in evictions, the Civil Office often is called on to perform the service of guiding landlords and tenants through the process, trying to protect both tenants from illegal evictions (both actual lockouts or constructive evictions resulting from the cutting off of essential services such as heat, water, etc.) and landlords from malicious vandalism.

Submitted By F/Sgt. Allen Rowe — UCERT Commander

The UCERT Team had 10 callouts and 1 assist to KPD for incidents in 2017.

1. 1/2/17, Team members were requested to assist the City of Kingston ESU Team with a barricaded/armed subject at the Super 8 Motel on Washington Avenue. The initial request was for scene perimeter security. We were then asked to provide sniper/observers to observe the subject who was barricaded in a second floor room. The subject was taken into custody by Kingston ESU after he set the room on fire and attempted to jump out of the second story window.
2. 2/22/17, Team members were requested by URGENT to assist with a buy/bust operation in the Town of Wawarsing. 2 subjects were taken into custody by members of UCERT and URGENT.
3. 3/20/17, UCERT was requested by the Town of Saugerties Police Department to the scene of an armed barricaded subject in a residence on Malden Turnpike. The subject was contacted by Saugerties PD and advised he would be surrendering. The subject exited the residence and was taken into custody. UCERT was then asked to clear the building. The residence was cleared by UCERT and the scene was turned over to the Town of Saugerties Police.
4. 3/21/17, UCERT was requested by the Town of Saugerties Police Department to the scene of an armed barricaded subject in a residence on Dock Street in the Village of Saugerties. Members from Town of Saugerties Police Department and the Ulster County Sheriff's Office were also on scene. The subject Robert Brown was reportedly upset, intoxicated and armed with a handgun. A perimeter was set up and the subject was contacted by phone by members of the Saugerties Police Department. The subject agreed to give up and exit his residence and was taken into custody without incident.
5. 4/6/17, UCERT was requested by the Town of Marlborough Police Department for a barricaded subject. Before the team arrived the subject exited his residence and surrendered to the officers on scene. Members were advised to cancel their response.
6. 4/12/17, UCERT members were requested by URGENT to assist with a buy/bust operation in the City of Kingston. Surveillance and arrest teams were set up for the operation. The operation was cancelled a short time later when it was learned the subject was not in Ulster County.
7. 6/2/17, UCERT was requested by the Town of Saugerties Police Department to the scene of an armed barricaded subject in a residence on Livingston Street in the Village of Saugerties. It was reported that a subject had come out of his second floor apartment and fired a weapon. A perimeter was set up around the building and the MRAP was placed in the back yard. The PA system was utilized to call the subject out of his residence. The subject was taken into custody and turned over to members of the Town of Saugerties Police Department. The apartment was then cleared by UCERT members and the scene was turned over to Saugerties Police.

8. 6/23/17, UCERT was activated to respond to the area of Awosting Road in the Town of Shawangunk for a reported sighting of 2 persons wanted in the State of Tennessee for murder and now staying at a relatives house. Prior to arrival it was reported the subjects had left the residence on foot. Roving patrols were set up to look for the subjects. During that time we received information that the subjects had committed a home invasion in Sullivan County. UCERT was requested to assist the NYSP SORT team to search the area. On arrival it was determined by the NYSP that they believe the subject had left the area in a vehicle. No further action taken by UCERT.
9. 7/14/17, UCERT was requested to respond to the Town of Rosendale for a reported suicidal barricaded subject on Sawdust Avenue. On arrival of the team we were informed by patrols the subject was in the residence but hasn't been seen or heard from since their initial arrival. UCERT members relieved perimeter patrols and took positions around the residence. Sometime later patrols contacted the command post stating they had the subject stopped down the road outside the perimeter. It was learned the subject had escaped out of the rear of the residence and evaded the patrols and left the area. He was then taken into custody and transported to Kingston Hospital for evaluation.
10. 7/28/17, UCERT members were requested by URGENT to assist with a No-Knock search warrant in the Town of Marlborough. It was learned there were possibly 3 subjects in the residence with a long gun and a handgun. The warrant was served and the subjects were all taken into custody. A secondary search of the residence was completed and resulted in finding 3 loaded rifles, a loaded shotgun, numerous loaded magazines and a ballistic vest.

The team assisted the State Police divers multiple times over the summer season with sonar details and navigation.

We were requested to assist the USCG Saugerties to inspect the hull on the Cutter WIRE and the buoy tender for damage. Divers utilized our underwater VIDEO camera. The recording was transferred to a thumb drive and TOT to staff on the cutter.

The Navigation and IWRT teams were again trained on all department boats and water craft and a basic class with regard to the Hudson River and the channel was taught. Our Side scan sonar equipment was deployed several times with continued training being conducted.

Again this year, members of the water rescue team were at the Ulster County fair for a COPP detail. Members were able to demonstrate water rescue skills and answer questions about the issues involved in a water rescue/scuba deployment. This year, fair goers were able to see our dive tank in operation and witness team divers demo their skills under water i.e.: lift bag operations as well as equipment operation and self rescue skills. This was a big hit with the children and a game of tick tack toe was often played against the diver through the glass with our diver loosing often. This Demo was a big hit and brought awareness to the public with regards to the team's training and the skills that members need to conduct rescues during water emergencies. The team's response vehicle and small boat was also on display. We also used the Dive tank at 8 special events throughout the county during the year.

The team and dive tank were requested to provide dive operation demonstrations 8 times throughout the summer and are always a big hit.

Monthly trainings were conducted with different topics and scenarios being taught to test member's skill levels, a vehicle was put on the river bottom at the Coast Guard station and training on search methods, rigging, lift bag work, and crane hookup was done by all divers.
